Veterinary Technician Full Time; Some Saturdays and Holidays

Applicant must have experience with preparing and maintaining a very technical surgical area, monitoring anesthesia, performing diagnostics such as radiographs and labwork, placing IV catheters, and performing patient care. Applicant will need to be physically able to lift and move up to 50# patients unassisted at times. Applicant must have patience, high ethical standards, be self-motivated, and show compassion toward people and pets. Must be able to complete tasks quickly and communicate effectively and efficiently with clients and patients. We work as a team and our new addition will need to be able to work well with others in a fast paced and sometimes stressful environment.

Licensed Veterinary Technician

Licensure Required
