ELAINE DANESHTRAD'S HIT LIST

Although the holidays are generally our ultimate favorite time of the year to shop, any time is a great time to shop in Beverly Hills. And for those of you who haven't quite recovered from your holiday walks through every department store, maybe it's time to get out and check the fabulous window displays on Wilshire Boulevard and Rodeo Drive. Spring is right around the corner and there's lot to see and of course... buy in Beverly Hills!

It's Time To Shop...Shop...Shop

Wardrobe

Clothing with sayings were all the rage in 2014... the trend continues into the new year. Why not get into the spirit?

Accessories

The accessories you carry are as important as the outfits you wear. For the girl who has it all (literally... too much to carry and no room to put it), the perfect clutch is just what you need to get you through all of your everyday minglings.

Jewelry

Everyone's favorite little Tiffany's Blue box is on the top of every girl's wish list all year long. Tiffany's iconic Atlas collection in the 18 Karat Rose Gold set is the perfect gift.

Beauty

Every girl wants that smokey twinkle on their eyes and perfect shades of hues on their lips.

Prabal Gurung's highly-anticipated collection with M-A-C Cosmetics gives us just that. It's easy to run and grab the collection as a M-A-C store opened on North Beverly Drive.

CELEBRITY TRENDSETTERS

TAYLOR SWIFT

Is there anything Taylor Swift can't do right? On top of teaching us about what it means to have a 5th consecutive successful album with "1989", Taylor teaches us a thing or two about fashion as well. It was all about plaid last Fall; let's see what 2015 brings.

JESSICA ALBA

When we think special occasions such as holidays and awards season, sequins come to mind. This look is perfect during cooler weather especially when paired with stockings and simple black booties as to not to take away from the outfit. Jessica Alba shows us classy done right in this black number.

BLAKE LIVELY

Pregnant and still fashionable? Not a problem. Exciting and then expecting Blake Lively gave us months of perfect fashion chic while she was pregnant. This look with a thick hooded printed jacket can make anyone (pregnant or not) look magnificent (and warm!) while on the go.

Welcome to the world of fashion blogger Elaine Daneshtrud whose talent for creating unique looks is followed by fans around the world.
