

Jenni Dabelstein
BPhy, MHSc, MBA, MAPA

**Physiotherapist
Equipment Consultant**

When choosing your new equipment, especially a wheelchair that you will use every day, you want a clinician on your side who not only really understands your needs, but also has a depth of knowledge about specialised equipment and the industry that surrounds it.

Jenni has been working with specialised equipment and clients with complex and varied needs and for over 25 years. Using a practical, collaborative and needs-based approach, Jenni will help you select new gear that is the best fit for your individual goals, lifestyle and aspirations.

Gizmo Rehabilitation

Equipment Audits

Have you got a lot of equipment, that came from a lot of different places, at different times? Do you struggle to find the right person to repair and maintain it, and only seem to find that it's worn out when it breaks? An Equipment Audit will organize all your equipment information into one place, in digital or print form, or both. It will also generate a maintenance and replacement schedule and identify contact information, so you can get hold of the right person, when you need them.

Medicolegal Projections

With a depth of understanding of both complex clinical needs, rehab equipment and the broader equipment industry, Gizmo can provide informed and intelligent projections regarding lifetime equipment needs for claimants.

Equipment Brokerage

Know what you need but uncertain what the right piece of equipment is and where to get it? Gizmo can help organisations or individuals develop a purchase brief and obtain quotes from a variety of sources to ensure you get the right equipment, at the right price.

Equipment Assessment & Prescription

Independent advice, assessment and prescription of a wide range of equipment to best suit your own unique biomechanical, therapeutic, functional and lifestyle needs, including:

- manual wheelchairs
- power wheelchairs
- wheelchair seating products
- exercise and therapy equipment
- walking and standing equipment
- recreational and sporting gear
- beds and mattresses
- bathroom equipment
- hoists and manual handling gear
- vehicle modifications
- special car seats and restraints

MASS, CAEATi & VOSS Applications

Quickly and efficiently get your paperwork completed and collated to submit effective applications to any of the current Queensland subsidy schemes.

Clinical Education

Educational seminars and training sessions can be developed to suit your own needs and time constraints. Written or digital training materials can be developed to support and promote correct equipment use for organisations or individuals.

Project Management

If you are building or modifying your home, fitting out a facility or updating your fleet, Gizmo can help manage your project to deliver the right equipment at the right time, and within budget.

“Your equipment should fit, it should feel great, it should look great and it should work hard for you...and it should feel *right*”

Fees & Charges

Fees vary for each client. Please contact us to discuss your needs so we can provide a quote. Usually an initial consultation will cost around \$160 , plus travel costs.

For Queensland Subsidy schemes such as MASS-CAEATi and VOSS, prescriber subsidies may be available depending on your needs and eligibility.
