

THE BOXER TRANSFER NETWORK

FORMED MARCH 2012

LIVES CHANGED TO DATE:300+

Our mission is evolving: we are all about the dogs/cats. Basically, in entirety, our purpose is to do good things for dogs/cats. We aim to make a perilous situation, something wonderful, one dog/cat at a time. We ask that you take the time to complete our application honestly and thoughtfully. We ask that, if you like our mission, and you find us worthy, you join our transport network to make future changes. Please allow us at least seven days to complete reference checks and process your application. You can expedite the process by providing an email address for all of your personal references.

Adoption information:

FIRST AND FORMOST: ALL OF YOUR PETS MUST BE SPAYED AND NEUTERED (BARRING A MEDICAL REASON)! PLEASE DO NOT APPLY IF THEY ARE NOT!!!!!! WE ARE RESCUE! WE SPEND OUR DAYS AND NIGHTS CLEANING UP BEHIND PEOPLE WHO DO NOT SPAY AND NEUTER. WE WILL NOT SUPPORT THIS.

Step 1: Complete the Adoption Application and return.

Step 2: Personal meeting and interviewing telephone calls with us.

Step 3: Processing. We thoroughly review your application and check references. We expect you to keep this cat forever. We want to ensure a great match, so we cannot take any shortcuts processing applications.

Step 4: Transfer: The Adoption Contract is signed. We ask that you make a donation to help reduce costs associated with care. And, finally, success—you take your new family member home!

WHAT IF SCENARIOS

Cats are territorial by nature. Introducing them to new territory or introducing a new pet into their territory can be very upsetting to them and cause them to act out.

Below is a list of potential issues cat owners face, whether it be when they first come home or sometime down the road. Please do not be overwhelmed or intimidated. There is no wrong or right answer. We are trying to get a feel for you as a potential BTN family and also present you with possible scenarios. Please describe how you would handle the following situations:

1. Being adopted is a stressful adventure for a cat. New home, new people, new cats and dogs. It's common for them to hide when brought into a new environment, and may lead to unfavorable behavior if they become too overwhelmed. How do you plan on introducing the cat to his/her new home and/or your current pets in order to minimize not only their stress level, but that of your current pets as well?

2. The adopted cat begins avoiding the litter pan in favor of other places throughout your home. How would you handle this?

3. Sadly, after some time of owning your pet, you become aware of a medical issue. Your vet diagnosed the adopted cat with a condition requiring a costly medication that must be given 3x a day. What do you do?

4. You discover one of your cats is bullying another and chasing him/her away from the litter pan. What do you do?

5. The adopted cat is using your furniture as a scratching post. How do you handle this?
