

THE LAST DECADE

MATHEMATICS OF THE ECLIPSES

From a 2010-2020 Timeframe

www.PostScripts.org

The purpose of this study is to focus on the decade from 2010 to 2020 as it pertains to celestial patterns that could have prophetic implications. The 'math' or numeration/counting and its date associations will be examined in relation to the total solar and lunar eclipses patterns. For the purposes of this study, only the complete sequence of total solar and lunar eclipses for the 2010-2020 decade are noted and considered. It will involve a Christian prophetic point of view as this Decade could very well be the 'Terminal Generation' per Psalm 150. The figures are taken from the NASA eclipse data website. Total solar and lunar eclipses happen all the time, but the 2010-2020 Decade time span is significant as to their timing, configuration on certain key dates, day count patterns and mathematical symmetry that this study will attempt to bring out. There is a sum of 6 total solar and 10 total lunar eclipses for the decade. There will be a lot of detailing of numbers so please feel free to verify the calculations.

In no other decades in this century has there been such a series of Blood Moons repeating patterns or symmetry. There were 10 Blood Moon eclipses in the decade of 2000-2009. Now there are going to be 10 Blood Moon eclipses in the decade of 2010-2020. Having 2 decades of 10 Blood Moons back to back is unprecedented and thus possibly prophetically significant. There are those that strongly believe that the unique repeating numbers, peculiar properties, and patterns correlate to possible key occurrences as they possibly relate to Biblical prophecy or End of Days scenarios. Could these celestial occurrences be a sort of double-witness of the solar and lunar eclipses signal that there is sort of a countdown of the 'Last Decade?' A total eclipse is one that speaks of punctuation and precision. Thus, the dates that correspond to such timing can have a profound spiritual, religious, and/or political correlation, especially realizing that the Blood Moons, for example are hinged to YHVH's Moedim or Feasts.

There are those that also believe that YHVH is indeed using these eclipses as time-markers, then it could be possible to realize that something momentous is about to take place in this 'Last Decade' like no other. Others specifically assert that all these eclipses could be heralding the season for the 'countdown' to the reign and rule of the AntiChrist and the time of Christ's 2nd coming. If this is so, then realize just how much closer is the possible timing of the departure or Rapture of this 'Last Generation' of the Bride of Christ or the Church Age on the 'Last Day.' This is assuming that the Rapture and the 2nd coming are 2 distinct events which are subject to dispute. The 2010-2020 Decade has 3 profound total solar eclipses that bracket the decade's timespan from end-to-end.

The Year 2012 and '33'

In terms of the Last Decade Theory, the sum number of years happens to be 6.66 years (rounded off) from the beginning total solar eclipse of November 13, 2012 to the end total solar eclipse of December 14, 2020. Will the significance of this '666' year count mark-off the reign of the AntiChrist to come; a beginning or a prelude or even an end? This 6.66-year count will make the total solar eclipse of March 9, 2016 the center focal points and date of the Last Decade and the 3.33rd year in relation to the eclipses. What is rather intriguing about March 9, 2016 is that the Jewish reading for that day is Exodus 39 which speak about the furnishings of the Tabernacle. This center date also happens to correlate precisely with the midpoint of the Jewish year 5776. Many Biblical researchers believe that this date corresponds to the Year of Light that. It is believed that it signals the beginning of a Sabbatical Cycle that ends then in 2021.

The Tetrad of 2014-15 that fill precisely on Jewish Feast dates seems to offset another focal point center of the total solar eclipse 6.66-year pattern. The 3 total solar eclipse timeline appears to be dissected into 2 spans of time. The first time span is from the total solar eclipse of November 13, 2012 to the total solar eclipse of March 9, 2016 as the 1st half. The total solar eclipse of March 9, 2016 to the total solar eclipse of July 2, 2019 is the 2nd half. Each of these timespans within the 6.66-year timeline seems to be pointing to several key focal points/dates. Mainly July 12, 2014 and July 27, 2018. Were these dates significant? Astronomically yes... other than that? It will remain to be seen. What was astronomically significant was that the July 27, 2018 Blood Moon was a 'Bull's Eye' eclipse and was exactly 7 years from its twin that occurred on June 15, 2011. Both were visible from Jerusalem.

As to the start of the Last Decade in 2010, taking some liberty here with the interpretation of numbers, the year 2012 mathematically is a very interesting number in more ways than one. Many who study astronomy and the possible patterns as they are related to Biblical prophecy are overlooking the importance and real significance of the 3 total solar eclipses that occurred on the 1st of Av in sequential years of 2008, 2009 and 2010. This triple sequence of eclipses dovetailed onto the 3 total lunar eclipses of December 2010, July 2011, December 2011. Where these the signals to the Last Decade? Many believed at the beginning of this decade that the world would 'end' on the Mayan Calendar of 2012. The year 2012 can be converted to another form of '33.' This is how the year 2012 can be mathematically interpreted as '33'.

$$\begin{array}{r} \mathbf{2012} \\ 20 : 12 \\ 2+0 \quad 1+2 \\ 2 \quad 3 \\ (11) \times (111) = \\ 1221 \\ 12 : 21 \\ 1+2 \quad 2+1 \\ 3 \quad 3 \\ \mathbf{'33'} \end{array}$$

What Time is It Mason?

Where the number 33 starts to get interesting is that it seems to initiate the 6.66-year timespan of the Last Decade's total solar eclipses pattern. The last Blood Moon of the Triad of 2011 that of December 10, 2011 specifically was exactly 339 days to the 1st total solar eclipse of November 13, 2012. This date of November 13 is the beginning of this 6.66 Day count. The number 339 can be broken down into 2 pairs of '33's:

$$\begin{array}{l} \mathbf{339} \\ 33-9 \\ \text{or} \\ (33) + (3 \times 3) \\ \mathbf{3-3} + \mathbf{3-3} \end{array}$$

Thus another 33-number pattern mirroring the 33 from the total solar and lunar eclipses that seem to highlight the years spanning this Last Decade Theory. With the 2012 year and the '339' day count you have $2012 = (33) + (33)$ from the 33 of the number of 339 Days + $(3 \times 3 \text{ or } 33)$ from the 9. With these factors then one gets a conclusive 33-33-33 number pattern just from the year 2012 itself. The 33-33-33 pattern can then also be converted to 6-6-6 -if added or $(9-9-9)$ if multiplied. Here then is the 33-33-33 or 6-6-6/9-9-9 pattern that leads up to the start of the 6.66-year total solar eclipse pattern. There is yet another 33 witness of the same start date for the 6.66-year pattern from the start date itself. The start date of November 13, 2012 also renders another '33.'

$$\begin{array}{l} \mathbf{Nov \ 13} \\ 11 \ - \ 13 \\ 111 \ - \ 3 \\ (1+1+1) \ (3) \\ \mathbf{33} \end{array}$$

So, in more ways than one, the number '33' seems to 'confirm', that the mathematics pertinent to the eclipses within the Last Decade theory time span are recurring. The number '33' is the base number and common denominator for all these mathematical calculations given the total solar and lunar eclipses. The number 33 is one of the most significant numbers in the occult Masonic Luciferian religion. It signifies the highest level of enlightenment and achievement. Thus, could the Last Decade Theory signal the decade leading-up to the 'arrival' or the 'initiation' of that which the numbers pertains to? Will this then be after the decade that of initiation stage of who the AntiChrist will be?

Many believe that 2020 is a spiritual staging and preparation time and those in the anticipation and preparing for the Luciferian New World Order (NWO) are counting down the time. The 2020-21 year cycle could then possibly correlate to the 'End', or time's up. The 2021 year and beyond could mean the start of a 'New Cycle' or New World Order? The year 2020 is the end of the 6.66-year count pattern based off of the total solar eclipses from November 13, 2012 to December 14, 2020. Could all these numerical associations be a factor as to the precise timing of the departure or the Rapture that will coincide with the start of the New World Order?

Astronomical Countdown

The patterns illustrated in the chart of the eclipses of the 2010-2020 'Last Decade' could possibly be a clue of what Christ said about Signs being in the Sun and Moon before His 2nd Coming. This 'Last Decade' has seen some amazing astronomical and prophetic event come to pass like no other before. More importantly, if indeed this timeframe will be the 'Last Decade', it is only referencing the event that will see none other than the Return of Jesus Christ to Earth at the Battle of Armageddon. An aside note, since most Christians are expecting the Rapture to be on some Jewish Feast day, as in Trumpets, Yom Kippur, Hanukah, or Pentecost, then it can possibly be a sure bet that it will not be on a high-expectant watch date. What this study is suggesting is that instead the Rapture might very well be pegged to a Blood Moon or total solar eclipse perhaps. As many have already stipulated, the Rapture does not have to be tied to a Feast of YHHV typology.

One thing has been for sure profound, the Blood Moons of the TRIAD-TETRAD-TRIAD sequence of this 2010-2020 Last Decade Theory seems to highlight a Prelude, a Climax and a Finale. But of what? Of Whom? Many Biblical End Times scholars refer to the time when YHVH's economy or attention will once again be focused on national Israel is what this eclipse pattern might be foretelling. It will be for a time as in the Old Testament of wanting His Earthly People type to repent of their spiritual condition and recognize that Jesus of Nazareth was and is indeed the Son of David, the Messiah. In addition, it will be a time of divine judgment of the world or nations and of Lucifer because he knows his time is short, in fact only 42 months of total power according to Revelation 12:12 and Daniel 9:27.

Will or could the 42-month reign of Lucifer fall within this 7-year time span or just the 3.5 year span that many argue is the only aspect of the 'Tribulation' that is left to be fulfilled prophetically? Will it be the first part or second part or both? Will the year 2022 then be the year that the Luciferian AntiChrist system is to be fully initiated and operational due to the Sabbatical Cycle Theory. It states that if and when the 70th Week of Years per Daniel occurs; it has to start at the beginning of a Sabbatical Cycle. The next one will be from 2022-2029. Perhaps. The Bible does declare that at that 'Time' he will have near total control of what he has made of the world by then. Many are seeing that the plans for this decade by his New World Order that are beginning to be implemented now.

A Decade

A decade is defined to mean a grouping of 10 years. In modern times and in the West, decades have a beginning in a year that ends in zero for convenience because there is no '0' year 1 BC - 1 AD. The 1st full decade had the years from 1 to 10, thus making the end of the 1st year the actual start of the decade. (Subject to interpretation and application.)

Total Lunar Eclipses of Current Century (Last 120 years)

1900-1909	6
1910-1919	7
1920-1929	9
1930-1939	8
1940-1949	7
1950-1959	8
1960-1969	9
1970-1979	9
1980-1989	9
1990-1999	7
2000-2009	10
2010-2020	11

Total Solar Eclipses (6)

A solar eclipse occurs when the Moon passes between the Sun and Earth. (2010-2020)

1. **Nov 13, 2012**
2. Nov 03, 2013
3. Mar 20, 2016
4. **Mar 09, 2016**
5. Aug 21, 2017
6. Jul 02, 2019
7. **Dec 14, 2020**

Total Lunar Eclipse (10)

A lunar eclipse occurs when the Moon passes behind the Earth so as to block the Sun's rays from striking the Moon.

1. Dec 21, 2010
2. Jun 15, 2010
3. Dec 10, 2010
4. **(1)-Apr 15, 2014 | Passover**
5. **(2)-Oct 08, 2014 | Sukkot**
6. **(3)-Apr 04, 2015 | Passover**
7. **(4)-Sep 28, 2015 | Sukkot**
8. Jan 31, 2018
9. Jul 27, 2018
10. Jan 21, 2019

Hebrew Calendar

The Hebrew calendar is currently governed by precise mathematical calculations and no longer relies on direct observation. It is thus possible to predict what day the various Jewish holidays will fall on for any future date. Modern religious and secular Jewish practices vary as to what types of calendar is followed. Presently there are up to 8 different types of 'Jewish Calendars'. One factor is constant though, the start of a 'Day' begins at sunset. There are differing view also and an on-going debate as to what the correct Jewish calendar is. For example, the 1st month of the Jewish calendar is the month of Nissan, in the Spring when Passover occurs usually around April. The New Year is in the 7th month, Tishri which happens to fall around September/October in the Fall of each year. As to the 'Last Decade' ramifications? Christ had some conversations about this coming 'Time' and the last Terminal Generation per Psalm 150.

In John 11:7 Jesus and Martha had a conversation about this Last Day... or perhaps the 'Last Decade' in this study's context. Concerning the death of Martha's brother Lazarus, Martha answered Jesus, 'I know he will rise again in the Resurrection at the Last Day.' What many such as her believe is going to be the catalyst and accelerate the process leading up to the Last Day is the Resurrection with encompasses the Rapture. It will be a singular event of the rising of the dead in Christ first then those that are alive will be caught-up to rendezvous with Jesus in the air. Contrary to some ascertains, Christians will not be lingering around for 40 days witnessing and then being Raptured 10 days before a Pentecost. As incredible as that may seem Jesus promise in essence is that the Last Decade of the Last Terminal Generation that is alive at the time of the Rapture event will not taste Death.

However, this singular prophetic event will facilitate the revealing of the identity of the false Messiah AntiChrist. This man will also know that it will be the 'Last Decade' because he will have but 1 last prophetic Week of Year or 'Decade' to rule over his short-lived last Luciferian Masonic Empire, i.e., the New World Order. The Luciferian evil plans for their coming 'Golden Age' include population reduction, chipping, a global control through currencies, economies, food, medicine, education, military, and religion total control, etc. The plans that Lucifer and his minion world leaders have for Humanity in the coming Decade is enslavement and death. They are seeking to enthrone Lucifer as their true Messiah. It is contrary to the lie that he seeks to aid Humanity and champion its enlightenment.

Lucifer is no friend of Humanity, although he poses as one, but according to Jesus Christ, Lucifer is a Murderer from the beginning, a Thief, the Father of Lies. The issue at the core for all this celestial and human conflict against the LORD is whom will we worshipped. Who will have all authority and power? Christ or Lucifer? This decision will come to a head, possibly on a world scale beginning in 2022 as it could signify the beginning of Daniel's 70th Week of Years in tandem with the New Decade as well commence. The increasing and overwhelming ominous Signs that this supposed 'Last Decade' of 2010-2020 could be the 'last one' are all around. There are clear Signs indicating that this Decade Eclipse Pattern could indeed be the 'Last Decade'.
