

Ms. Cardwell

I love this short verse because it shows that Jesus truly does identify with us as humans and that He Himself was fully human while also fully God.

I love teaching preschool because of the children. I love their smiles, the twinkle in their eyes, their laughter, and seeing their faces when a new idea clicks as they learn. Most of all I love when the children realize how much Jesus loves them.

One of my favorite parts of my job is Jesus Time as I watch the face of the children while they learn about the love of Jesus Christ from the Bible. It's a joyful time for the children and for me.

I've been with Lambs of Faith since 1988. In the years that I've served at Faith I've taught the 2 - 4 year old children, along with leading the outside classes, and serving wherever I am called on to help.

I love working at Lambs of Faith because of the caring, family atmosphere. Faith is a place where people can grow in faith in Jesus Christ without being judged or looked down on. Serving at Faith allows me to form friendships with the families, pray with them, and see their children grow up.
