

LAYER – Standard Breed
Rhode Island Red

If you are striving for the "Peak" in egg production and still want a heavy bird with good market possibilities,

these Reds are for you. A check of national egg laying contest records will reveal the superior egg laying qualities of this breed.

\$3.85

LAYER – Standard Breed
Golden Comets

Widely acclaimed in the poultry industry where brown eggs are preferred - these are one of the finest brown egg layers available today. They mature early and are a quiet bird. Comets are quite robust and can withstand the colder, non-insulated laying houses.

\$3.85

LAYER – Standard Breed
Barred Plymouth Rock

This is another old favorite and one that, in true breeding style, delivers big profits. This is one of the oldest and most selected strain of Barred Rocks in the U.S. The Barred Plymouth Rock has held its own because of its great merit as a profitable, practical fowl for every day in the year use.

\$3.85

LAYER – Unique Breed
Araucanas/Ameraucanas

Also known as Easter Egger because of the variety of colored eggs they lay. They come in many colors and sizes and have a good disposition. Many of these birds have muffs and beards and all have full tails. They are great backyard birds

\$4.25

LAYER – Unique Breed
Buff Orpingtons

Orpingtons are an excellent starter bird for those looking for a general-purpose chicken. Their calm, pet-like disposition makes them an ideal fit for the novice flock owner. They have a very low and broad body giving them a curvy, fluffy appearance. They are beautiful buff color and will lay lots of nice brown eggs. They make wonderful fryers and roasters.

\$4.25

LAYER – Unique Breed
Silver Laced Wyandottes

These are truly magnificently colored birds. Their silvery white feathers, laced with black make them a most attractive bird in your barn yard. They are heavy producers of large brown eggs.

\$4.25

**LAYER – Rare Breed
Rhode Island Blues**

of large brown eggs. If you're looking for a blue chicken that will out-lay most - this is your breed.

\$5.05

**LAYER – Rare Breed
Olive Eggers**

When it comes to appearance – Olive Eggers are a wildcard. They come in virtually any and every color and/or combination of muffs, tufts, and rumps. They are bred from Black Copper Marans and Ameraucanas. They lay predominantly green eggs ranging in color from sage to olive.

There is potential to lay other colors also. They are of moderate size and moderate egg production – these are truly an ornamental bird.

\$5.05

**LAYER – Rare Breed
Blue Rock**

The Blue Rock results from crossing Barred Rocks and Blue Andalusians leave us with a sex-linked layer breed. These striking birds are monochromatic – hens being largely light gray fading into a charcoal head. Blue Rocks are a very good layer of large brown eggs; they are also quite hardy and cold tolerant.

Broilers \$2.55 each

** Discount** 100 or more \$2.45 each

Cornish Rock Cross

The large massive Cornish Cockerels are bred to large broiler type White Rock hens. The cross produces one of the finest quality broiler type chicks that can be found anywhere. They make market weight in 7 weeks. Many of our customers report 4 lb. broilers in 7 to 8 weeks. They give you the desired broad breast, big leg, big thigh, uniform conformation, rich yellow skin, extra fast feathering, real prime broilers. We cannot overemphasize the importance of proper nutrition for your successful results from our Cornish X Rock Cross chicks!

Freedom Rangers

This slow growing broiler is well-suited for more natural rearing methods, such as free range or organic systems. Characteristics include yellow skin, Shanks and beaks along with mostly red feathering, including a small percentage of tri color birds. Expect 4 to 5 lb birds (live weight) in 9 to 11 weeks.

TURKEYS

<u>Broad breasted White Turkey</u>	<u>Mamouth Bronze Turkeys</u>	<u>Artisan Gold Turkeys</u>
 <p>Our broad breasted whites are an extra good compact meat type bird. They dress out well at almost any size, with a pleasantly plump carcass. They are a favorite of many because they look so well when dressed, having no dark pin feathers, and such fine color.</p>	 <p>Our Bronzes are outstanding examples of this breed. Handsome, colorful birds that attract attention whenever seen. Hens average 18 to 20 lbs. and toms average 30 lbs.</p>	 <p>This rare black breed of turkey is smaller in size and slower growing. They thrive in a free range environment where it can express natural tendencies such as running and roosting. The Artisan Gold offers a robust, gamey taste that is exotically different from traditional turkeys.</p>
<u>\$12.00</u>	<u>12.00</u>	<u>\$12.00</u>

DUCKS

<u>Giant White Pekin</u>	<u>Khaki Campell</u>	<u>Mallard Ducklings</u>
 <p>With proper feed and care our White Pekins will develop to a weight of 7 lb. in 8 weeks</p>	 <p>Khaki's are considered one of the best dual purpose ducks and are prolific layers.</p>	 <p>The Mallard drake is one of the most beautifully colored of all waterfowl. Mallards fly, but will usually stay at home if fed regularly.</p>
<u>\$7.55</u>	<u>\$7.55</u>	<u>\$7.55</u>

BANTAMS ASSORTED

Known as the "Flower Garden" of the poultry world because of their beautiful coloring. They are about 1/4 size of standard bred chickens and are perfect for pets and exhibition. You will truly fall in love with these beautiful birds.

5-24 - **\$5.00**

25 or more - **\$4.50**

LAYER – Standard Breed
Amberlink

The Amberlink is a hybrid, but not a sex link. Roosters and hens look similar in their cream coloring and limited amounts of red feathers, often on the neck and wings. They

are a cross between a Rhode Island White Rooster and a Rhode Island Red Hen (the opposite of the Golden Comet). We are one of the very few hatcheries in the country to offer this variety.

5-24 - **\$4.75**
25 or more - **\$3.85**

LAYER – Standard Breed
Black Australorp

A Black Australorp's striking iridescence, calm personality, and dependable laying make them an ideal backyard chicken. One Black Australorp holds the world record for laying 364 eggs in 365 days under official Australian testing.

5-24 - **\$4.75**
25 or more - **\$3.85**

LAYER – Standard Breed
Black Sex Link

Black Sex Links are a barnyard staple. This breed is very much dual purpose. Roosters carry a heavy body while hens are great egg producers. Females are solid black with a reddish cast in the face, neck, and chest. The roosters resemble a Barred Rock.

5-24 - **\$4.75**
25 or more - **\$3.85**

LAYER – Standard Breed
Brown Leghorn

A long-standing favorite with a whopping 16 APA recognized varieties, the Leghorn is unrivaled in white egg production. Being as this breed is so light their feed-to-egg

conversion is outstanding and being adaptable to confinement makes this bird an ideal candidate for production. The Brown Leghorn is a spirited, stylish, active bird which is exceedingly hardy. Its activity can even make it somewhat wild

5-24 - **\$4.75**
25 or more - **\$3.85**

LAYER – Standard Breed
Isa Brown

A breed that has proven its performance in the poultry word – this is your commercial brown egg layer. They are exceptional medium-dark brown egg layers. They are a small framed bird that excels in feed-to-egg efficiency. ISA Browns are sex-linked making sexing a breeze. Hens are a rust color with lighter highlights generally in the cape, wings, tail and fluff; roosters will have the reverse coloring. They are an adaptable breed that can tolerate confinement or free range, and a steadfast producer of large to extra-large eggs.

5-24 - **\$4.75**
25 or more - **\$3.85**

LAYER – Standard Breed
New Hampshire

For outstanding vigor, size, uniform growth, early maturity, rapid full feathering, heavy egg production and large egg size. This fine strain produces large brown eggs with extra good shell texture, and has a yellow skinned carcass free from dark pin-feathers.

5-24 - **\$4.75**
25 or more - **\$3.85**

LAYER – Standard Breed
Red Cross

Cinnamon Queens are prolific layers and are also hardy and good meat producers. They have a fast body growth rate compared to other hybrid chickens. Their

friendly demeanor makes them wonderful birds to keep in your flock.

5-24 - **\$4.75**
25 or more - **\$3.85**

LAYER – Standard Breed
White Leghorn

White Leghorn is "The businessman's bird-all around profit makers." White Leghorn chicks are bred for livability, performance, high production, superior shell strength, egg size and feed efficiency. They are

truly an outstanding bird.

5-24 - **\$4.75**
25 or more - **\$3.85**

5-24 - **\$5.25**
25 or more - **\$4.25**

LAYER – Unique Breed
Columbian Rock Cross

A Hybrid chicken bred from a Columbian Plymouth Rock Rooster and Rhode Island Red Hen. This robust, dual-purpose bird is known for its ability to efficiently produce eggs even in the coldest of climates. An excellent layer of cream-colored brown eggs with a calm good-natured disposition, this cross is a great choice for the family flock.

5-24 - **\$5.25**
25 or more - **\$4.25**

LAYER – Unique Breed
Golden Laced Wyandotts

Is one of the most beautiful breeds. Their feather pattern is a combination of rich golden brown laced with a greenish-black tipped feather. They have rose combs, and are good producers of brown eggs

5-24 - **\$5.25**
25 or more - **\$4.25**

LAYER – Rare Breed
Barnevelder

Originating from Holland this is a very cold tolerant

breed. They are a gorgeous burnt orange with thick black lacing throughout. They are a medium-sized bird laying dark brown eggs. With their calm and easygoing temperament,

they are an excellent choice for your backyard.

5-24 - **\$6.75**
25 or more - **\$5.05**

LAYER – Rare Breed
Buckeyes

They're named after the "Buckeye State" of Ohio where this breed originated in 1896. Buckeyes have rich yellow skin, with mahogany feathering and black tail. They adjust to confinement well but prefer to range on grass. A good dual

purpose producer of brown eggs well suited for small farm yard and back yard flocks.

5-24 - **\$6.75**
25 or more - **\$5.05**

LAYER – Rare Breed
Buff Brahma

A stately bird is known for its exceptional winter performance due to its small rose comb, dense feathering, and feathered shanks and toes. Between their unruffled attitude

and beautiful buff feathers edged in black on the neck, wings, and tail; they are a perfect backyard bird.

5-24 - **\$6.75**
25 or more - **\$5.05**

LAYER – Rare Breed
Cuckoo Marans

Know best for their distinctive chocolate brown eggs. The Cuckoo Maran is a rare breed that adapts well to confinement. They resemble a Barred Plymouth Rock except their bars are not as perfect and their colors are not as distinct. Marans lay the darkest eggs of any breed and are a nice dual purpose bird.

5-24 - **\$6.75**
25 or more - **\$5.05**

LAYER – Rare Breed
Dark Brahma

Unlike other Brahmas, the color pattern of the Dark Brahma depends on the sex of the bird. Roosters are typically black and silver while hens sport a beautiful silver-penciled plumage. Like all Brahmas, Dark Brahmas have feathered shanks and toes. These brown egg layers have a very calm temperament making them a popular choice for pets.

5-24 - **\$6.75**
25 or more - **\$5.05**

LAYER – Rare Breed
Noir Marans

It doesn't get better than this, a sex-linked, production, dark brown layer. What more could you ask for? The Noir Marans are a very good layer of rich dark brown eggs ranging from copper to chocolate in color. These hens are largely black with varying amounts of bronze. The roosters are cuckoo. This breed produces a combination of both clean and feather legged chicks. The Noir Marans allows you to incorporate darker eggs into your basket without breaking the bank.

5-24 - **\$6.75**
25 or more - **\$5.05**

LAYER – Rare Breed
Speckled Sussex

 [fivemilecreekfarm](#)

This rare and extremely attractive breed originated in Sussex County, England. When mature their plumage is a beautiful brownish red with feathers tipped in white. This variety combines beauty and utility which makes them an excellent choice for both your backyard flock as well as a stunning show bird.

5-24 - **\$6.75**
 25 or more - **\$5.05**

LAYER – Rare Breed
Welsummers

A Dutch breed known for its cold hardy, calm temperament and their production of dark reddish-brown eggs. They are a curious and intelligent breed suited well for backyards. Welsummers have a single comb and have very different plumage from male to female making them a

unique addition to your flock.

5-24 - **\$6.75**
 25 or more - **\$5.05**

LAYER – Uniquely Rare
Black Laced Red Wyandotte

These beautiful chickens have the addition of a double dose of Mahogany color to them and are much darker than the Black Laced Gold Wyandotte. They work well in confinement or free range and make a great back yard type chicken. This chicken makes an excellent pet and is good for eggs and/or meat.

\$11.50

LAYER – Uniquely Rare
Blue Australorp

A Blue Australorp's desirable blue plumage, calm personality, and dependable laying make them an ideal backyard chicken. One Australorp holds the world record for laying 364 eggs in 365 days under official Australian testing.

\$11.50

LAYER – Uniquely Rare
Cream Legbar

Undoubtedly the most popular auto-sexing breed to date, this is a medium sized bird laying a good amount of medium sized robins-egg-blue colored eggs. This curious breed's appearance varies between sexes. Roosters are a range of cream and slate barring when the hen sports a small crest. She is two toned – largely silver with a toffee colored breast.

\$11.50

LAYER – Uniquely Rare
French Black Copper Marans

French Black Copper Marans are the quintessential dark egg layer. They are broad, stand tall and just as their name suggests – black and copper. They are fair layers of medium-large eggs ranging in color from caramel to chocolate. Black Copper Marans are an active feather legged breed that loves to forage.

\$11.50

LAYER – Uniquely Rare
Lavender Orpington

Lavender Orpingtons are a solid muted, violet or blue. 'Lavender' is also known as 'self-blue' Orpingtons tend to be very friendly and have a pet-like demeanor, they are a productive layer of Medium-Large

brown eggs. Lavender Orpingtons, just like any other color are large curvy birds that often go broody.

\$11.50

LAYER – Uniquely Rare
Splash Jersey Giant

The largest breed in the American Class the Jersey Giant has appropriately been nicknamed the 'Gentle Giant'. Although only average layers these birds lay a considerably larger egg than most.

Roosters are popular to caponize but these birds have decreased in popularity for consumption due to their slow growth and poor feed conversion. The splash color is an especially unique variety that is beautiful on their own, or can be used in blue breeding.

\$11.50

LAYER – Exceptionally Rare
Chocolate Orpington

Chocolate Orpingtons are such dark brown they almost appear black. Orpingtons tend to be very friendly and have a pet-like demeanor, they are a productive layer of medium-large brown eggs. Chocolate Orpingtons, just like any other color, are curvy

birds that often go broody.

\$16.00

LAYER – Exceptionally Rare
