**Committed to Quality, Customer Service and Our People**

## CAPABILITY STATEMENT

**Broadband Connect LLC** is a certified Veteran-Owned Small Business (VOSB); with a management team that has more than four decades of technology systems experience; operating telecommunications, Information Technology (IT), fixed-wireless networks, data centers and computer facilities; and designing, installing, operating and maintaining inside plant fiber/copper/coaxial cable infrastructures; broadband and telephone systems for municipalities, school systems, State, commercial and Government clients throughout the United States. We've provided cable technician training services for individuals, businesses, workforce agencies and a community college. We also offer a full range of Information Technology services for small to mid-size businesses, and government agencies. All our solutions are custom tailored to our client's specific needs and budget.
