Strategic Partnership With IBM & International Presence Limited Brings the Power of Their CloudFax400 & iMPSCloud.Com Technology to the IBM Cloud Marketplace.

FOR IMMEDIATE RELEASE

SAN FRANCISCO, CA, Apr 28, 2015 (Marketwired via COMTEX) - International Presence Limited Headquartered in London UK with offices in Indialantic Florida USA today announced a strategic partnership with IBM that brings the power of their CloudFAX400 and iMPSCloud.com technology to the IBM Cloud marketplace.

Starting today, IBM clients can replace their existing in-house Fax Servers making immediate savings on the annual maintenance fees and telephone line rental costs associated with this legacy technology by signing up to a simple Cloud based solution on the IBM Cloud Marketplace on a pay per page basis.

International Presence has been developing and delivering cutting-edge enterprise fax solutions for some 29 years and with CloudFax400 and iMPSCloud.com provides a simple 3 in 1 solution to moving your old Fax Server technology to the Cloud.

The IBM Cloud marketplace offers client's access to more than 100 SaaS applications, IBM's Bluemix™ platform-as-a-service with its suite of composable services, the powerful SoftLayer infrastructure-as-a-service and IBM's rich intellectual capital and deep industry expertise. This single online destination with a suite of cloud services delivers a new buying experience for clients that enables line of business professionals to deploy new services faster; allows developers to build them with greater speed; and offers IT departments more creative, efficient and lower-cost ways to deliver these services.

Glyn Davies, International Presence Ltd's Group CEO said, *"We signed our first partnership with IBM way back in 1988 when they sold our Telex and FAX/400 offering on their AS/400 platform world-wide, so to be partnering with them again over 25 years later is a real milestone in our history."* He added, *"Together over the years we have sold to thousands of Customers world-wide and feel confident that this latest Cloud offering will be just as well accepted as Customers look to get rid of the hassle of dealing with their current on-premise legacy solutions."*
