DESCRIPTION: Here is an iconic BP Pinto in an ideal 45# draw weight. The BP Pinto has always been a strikingly beautiful bow, but it also performs well. At 45#, this is suitable for hunting as well as the archery range. Made from a combination of black holly, white holly, and cherry, this is a great looking recurve. Very comfortable pistol grip. Has the original finish that was cleaned up and touched up with a couple of coats of Tru-Oil. This bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes. No chips, dings or cracks. No crazing. One thin superficial stress line and a small repaired scrape (see pics on last page). A few minor scratches and nicks here and there. Decal is in very good shape. Overall, this is a really nice bow in excellent condition for its age. This bow sold for \$70 in 66, which translates to \$539 in 2020 inflation adjusted dollars.

Note: The limbs are white, but one appears blueish in the picture. It is a camera thing.
