THE RAPING OF AMERICA'S VETERANS — True Confessions Inside

CEO BARRY G. CAMPBELL

YOU DON'T HAVE TO BE RAPED FOR SEXUAL HARRASSMENT

30 years working in the VA and still no one truly recognizes how many Veterans we are talking about. Being on the front line, I know.

Veteran Quality of Life Access Network

Inc., is about solutions to the problems Veterans face today. We believe, 'if you don't identify the problem, you can't eliminate the problem.' VQLAN will stand where no one else dares. We still stand for the truth.

By this time everyone knows what is going on, but no one in America has been doing anything to stop it. We are talking about, 'while enlisted in the U.S. Military service, men and women are raped and sodomized.' This has been going on for 50 years.

This is a very serious subject. Veterans that this has happened to are scared by the powers that be. (the system) I, as CEO, by helping thousands upon thousands of Veterans over a 30 year span, discovered the tip of the iceberg of the numbers behind this hideous crime against humanity. This is still the biggest cover-up in the Nation. That is why VQLAN is dedicated to the forgotten ones. I know first hand how it destroys lives forever. They will never be the same. They suffer from mental and family problems.

Their claims for compensation through the government is fruitless because of cover-ups from the time the rape occurred. Missing records and military personnel (higher levels) covered up for each other so the proper papers would never be found.

Being that no one cares until it happens to them or a family member, VQLAN will be putting a platform together for the Veterans who have gone through the ordeal of being raped or sodomized. We hope to bring total awareness to the public and military personnel. Maybe then they will stop covering up the rapes and compensate the Veterans properly. America must face the truth now by helping the ones whose lives have changed forever.

America's most hideous crimes continues, so will VQLAN continue to report it to you until someone listens.

One out of every three females are being raped today.

Sexual Assault in Woman Veterans: An Examination of PTSD Risks

(OBJECTIVE) This study examines the differential impact of military, civilian adult, and childhood assault on the likelihood of developing post traumatic stress disorder (PTSD). It also examines the relationship of military sexual abuse to service utilization and health care cost among women who assess services through Veterans Affairs. (VA)

(RESULTS OF STUDY) Compared with those without a history of sexual assault, women Veterans were 9 times more likely to have PTSD if they had a history of Military Sexual Assault (MSA), 7 times more likely if they had childhood sexual assault (CSA) histories, and 5 times more likely if they had civilian sexual assault histories. An investigation of medical charts revealed that PTSD is diagnosed more often for women with a history of MSA than CSA was associated with a significant increase in health care utilization and cost of services, but there was no related cost associated with MSA.

(CONCLUSION) Women Veterans have differential rates of PTSD due to sexual assault, with higher rates found among those assaulted while on active duty. Although women with MSA are more likely to have PTSD, results suggest that they are receiving fewer health care services.

You can read entire article (study) at <http://www.psychosomaticmedicine.org/cgi/content/full/66/5/749>

In 2009 the Defense Department issued its report on sexual assault in the military during 2009. It detailed that in 2009, compared to 2008 reports of military sexual assault witnessed a 11 percent increase, and most disturbing a 16 percent increase in reported assaults in combat territories like Iraq and Afghanistan.

NEW MILLENNIUM ORGANIZATION!

THE OTHER VETERAN

The other Veterans are female. Many of them do not come to the VA for services. There are many reasons why they do not seek benefits or medical care.

One female Veteran stated, "The VA doesn't have a lot for women Veterans." Another stated, "I don't come to the Clubhouse because I don't want to come to a social club." "The inpatient services are not woman friendly," commented one female Veteran after spending a month in the mental health ward of the NYVA Hospital.

Then there are the men and women relationships. It appears that many women Veterans don't want to be 'rapped to' by their counter part. It's a problem that causes many women to stay away from the hospital.

Many women Veterans suffer from sexual trauma, prejudices and many problems associated with women having career fields in the military usually taken by men, or for just being a woman.

For example, an aircraft pilot or mechanic, and many more military career fields.

Male Veterans need to look at

women Veterans as being a person first, just one of the guys.

The VA knows that there is a problem and has vowed to improve services for its female Veterans.

When the NYVA had its Open Studio and the Day Program, more women attended the program. Occasionally, they may attend the Mental Health Clinic, but overall they seem to stay away.

Unless women Veterans ban together as a fighting force, I believe that things will not change. They must demand equal services.

H.R. 12:11 Women Health Care Improvement Act: To amend **Title 38**, United States Code, to expand and improve health care service available to woman Veterans, especially those serving in Operation Enduring Freedom and Operation Iraqi Freedom, from the Dept. of Veterans Affairs (DVA), and for other purposes. **Sec. 101.** Study of barriers for women Veteran from the Dept. of Veterans Affairs: **Sec. 102.** Comprehensive assessment of woman's health

care programs of the DVA:

Sec. 201. Medicare for newborn children of women Veterans receiving maternity care.

Sec. 203. Pilot program for provisions for child care assistance to certain Veterans receiving certain types of health care services at Department facilities. **Sec. 204.** Addition of recently separated woman and minority Veterans who want to serve on advisory committees. Go to

www.govtrack.us/congress/Bill for the entire **Bill**.

HOMELESS WOMEN VETERANS

WASHINGTON—The number of female service members who have become homeless after leaving the military has jumped dramatically in recent years, according to new government estimates, presenting the VA with a challenge as it struggles to accommodate the hundreds of thousands of Veterans from Iraqi and Afghanistan.

As more women serve in combat war zones, the share of female Veterans who end up homeless, while still relatively small at an estimated 6,500, has nearly doubled over the past decade, according to the Dept. of Veterans Affairs.

For younger Veterans it is even more profound: One out of every 10 Vets under the age of 45 is now a woman, the statistics show.

And unlike their male counterparts, many have the burden of being a single parent.

Overall, female Veterans are between two and four times more likely to end up homeless than their civilian counterpart, according to the VA, most as a result of the same factors that contribute to homelessness among male Veterans: mental trauma related to their military service and difficulty transitioning into the civilian economy.

FAMOUS WOMEN VETERANS - (Just a Poem)

God Blessed America?

By the tone in the red white and blue
it is known that death has risen its head.

A quiet storm of only family and friends know who rides beneath the shadows,

tears of not understanding.

America hides its shame,
mothers, grandmothers, daughter,
sister and her.

Their bloodless corpse don't

glamour on CBS or daily news.

A few stories come and go.

Most often their death is hidden

in a, 'don't see, it can't be'

On Veterans' Day their life is
not in their Nation's Memory.

Cold in some corner of some
military hospital, some where.

No man should allow the death
of his 'Right Rib.'

STRESSER LETTER—The Story of a Female Soldier

(While reading these letters, you may have questions. "Why didn't she do this or that?" Remember there is a Code of Military Conduct that all soldiers must abide by. This story is like many stories in the US Military. Some are worse. Sexual harassment is a problem in the Military just like in civilian life. It must not be allowed to continue).

STRESSOR LETTER ONE

Time frame Feb. 2004—September 2004: Location: Baqubah, Iraq:

I came to 590th. in December 2003 and within a month we deployed to Iraq. The Company was stationed in Camp Victory, but all the squads were tasked out. I was in 3rd. Platoon and the squad I was in was stationed to go to Baqubah, Iraq. I hardly knew anyone and depended on my squad leader to guide me in the right direction. After being in the camp alone with just our squad for less than a week, my squad leader started to make me feel uncomfortable with his subtle comments at work. He would whisper in my ear to bend over, and pick something up. His name was Goodem. Every night after work he would suggest to me that I should come over to his room. I would call my father back at home crying telling him everything that my squad leader was doing. I told my dad that I had requested to speak to a Chaplain and that my squad leader and my team leader told me that I had to tell them why before I could see the Chaplain. I did not know at the time that I didn't have to tell them, so I just said I didn't want to go anymore. One night I was on duty and had to stay late. When I was just about to leave Sgt. Gooden told me to come to his room and drop off the keys to the site where I worked. I went to his room and knocked on the door. He told me to take a step inside. I refused and dropped the keys on the floor and tried to walk away. He then pulled my hand for me to come inside. I stood by the door and asked him exactly what he needed from me. He told me to relax and he wasn't going to hurt me. He kept insisting that I sit down but I was afraid to go all the way into the room. He stood back up and attempted to force me to sit on his lap. I pushed myself off of him and ran to the door. At the door my team leader was standing there looking at me with a grin on his face. I was so scared that I ran to my room and begged my room mate not to leave that night. While at work I would have to do a lot of bending over and picking things up and SSgt Gooden would walk past me and brush my butt with his finger. I would leave work and run to the latrine crying asking my roommate Gary, Kalisha if she saw what had happened. I would make her pay attention throughout the days.

After 7 months of dealing with his sexual comments, work became unbearable. SSgt Gooden even started to smoke me and my boyfriend for at the time for little things. I was always in trouble after SSG Gooden found out I was seeing someone who is now currently my husband. I told my team leader Sgt. Acevedo, John what was going on and begged him not to tell SSgt Gooden what I had said. I didn't want to get into trouble, but known Sgt Acevedo told him. After that I began to always be put on extra duties and smoked.

We finally returned to Camp Victory with the rest of the company, I told my platoon Sgt and tried to file a complaint but they tried so hard to keep it within the company. I never even knew about EEO complaints. I didn't know much about the rules. My platoon Sgt. took me out of the platoon and told me that I should handle everything. It didn't stop anything. I was very depressed and I was moved away from the platoon and no one asked me what really happened, not even my commander knew what was going on at the time.

STRESSOR LETTER TWO

Location: Camp Liberty, Iraq

Time Frame: May 4, 2006— May 10, 2006

I started to receive letters from an unknown person who called himself Black Jack. He e-mailed me on my AKO account telling me that he wanted to have sex with me, and that he would not tell my husband or his wife. I did not respond to these e-mails, but my husband did. My husband and I were in the same company and the person was in our company as well. My husband wanted to find out who this person was and why he was e-mailing me. After a few days Jack Black set up a meeting time and place to have sex with me. My husband suggested I show up to see who it was. When I should up, I didn't know exactly who it might have been because there were more than one person there. So I walked away back to my husbands' room. SSgt Kallie, Trey started to tell me it was him and that I should meet him in his room that night when my husband was asleep. I looked at him and told him I couldn't believe him that I was friends with his wife and I couldn't cheat on my husband. I later looked for my husband to tell him who it was that was e-mailing me all the time. My husband went to confront SSgt. Kallie about the situation and they got into an altercation that led to my husband being court marshaled but later fully acquitted on all charges. SSgt Kallie „lied throughout the entire case that he had not tried to sleep with me. I filed a sexual harassment complaint because I no longer felt comfortable with SSgt Kallie being my Administrative NCO anymore. I had to beg my commander to get SSgt Kasllie out of my company. They removed him for one month and then sent me back home from Iraq early. They treated SSgt Kallie as if he was the victim, because he got hurt during the fight with my husband and him, but no one really understood how depressed I was. I started seeing a psychiatrist in Camp Liberty. I went twice a week. I was put on suicide watch and they took my weapon from me. I was taking a medication called Ambien to help me sleep at night, the psychiatrist prescribed it for me. I was afraid to walk to the latrine at night alone. The complaint didn't go any further because the trail was taking over. I wrote and submitted documents stating what had happened but I was sent back to the United States because I was expecting a child.

The Importance of Life Insurance

One thing that many family members are reluctant to talk about is death. Life Insurance is part of it and every person should have no less than a \$6,000.00 policy. The cost of life insurance is small compared to the toll it will take on a family when a loved one has no insurance. A trusted member or a last will and testament should be considered. Besides the physiological toll it can also cause a physical toll. Most families today do not have \$6,000.00 or more to pay for a funeral. There also may be bills and loved ones left be-

hind to fend for themselves. It can tare a family apart.

Service Members Group Life Insurance (**SGLI**) and Supplemental-Service Disabled Life Insurance (**SSDLI**) is a good way to pay for insurance. Don't leave your family to suffer after you are no longer there. The pain can last a life time.

After discharge from military service, keep your insurance. If you have **100% VA** compensation, the cost can be taken directly out of your monthly check. The **Veterans' Benefit Act 2010** will be a great help. Be thankful for the VA. (editor)

KNOWS

HATER

by Maya Angelou

A hater is someone who is jealous and envious and spends all their time trying to make you look small so they can look tall. They are very negative people to say the least. Nothing is ever good enough!

When you make your mark, you will always attract some haters...

That's why you have to be careful with whom you share your blessings and your dreams, because some folk can't handle seeing you blessed...

It's dangerous to be like somebody else... If God wanted you to be like somebody else, He would have given you what He gave them! Right?

You never know what people have gone through to get what they have...

The problem I have with haters is that they see my glory, but they don't know my story:

If the grass looks greener on the other side of the fence, you can rest assured that the water bill is higher there too!

We've all got some haters among us!

Some people envy you because you can:

- a) Have a relationship with God
- b) Light up a room when you walk in
- c) Start your own business
- d) Tell a man / woman to hit the curb (if he / she isn't about the right thing)
- e) Raise your children without both parents being in the home

Haters can't stand to see you happy. Haters will never want to see you succeed.

Most of our haters are people who are supposed to be on our side.

How do you handle your undercover haters? You can handle these haters by:

1. Knowing who you are & who your true friends are. (VERY IMPORTANT!!)
2. Having a purpose to your life: Purpose does not mean having a job. You can have a job and still be unfulfilled. A purpose is having a clear sense of what God has called you to be. Your purpose is not defined by what others think about you.
3. By remembering what you have is by divine prerogative and not human manipulation.

Fulfill your dreams! You only have one life to live...when its your time to leave this earth, you 'want' to be able to say, 'I've lived my life and fulfilled 'my' dream,... Now I'm ready to go HOME!

When God gives you favor, you can tell your haters, 'Don't look at me... Look at Who is in charge of me...'

Watch out for Haters...BUT most of all don't become a HATER!

'A woman's heart should be so hidden in Christ that a man should have to seek Him first to find her.' Maya Angelou

ACCUTUAL INCIDENT AS DESCRIBED BY A MALE VETERAN

The most traumatic event that happened to me in the military is that I was raped by a fellow soldier. While taking a shower I was washing soap off of my face when I was tapped on my shoulder and asked if I was gay. I replied, "No." He then grabbed me by my neck and forced me to perform oral sex on him. He kept saying, "Keep going." I tried to run away. He grabbed me again, through me down. I slipped and fell due to the wet surface in trying to escape. He then forced my legs apart and forced his penis into my rectum. This violent, brutal, and traumatic event in my life lasted for about half an hour., I guess, but it seemed as though it would never end. I believe due to the shock of it all I blacked out. At some point I began to hear voices asking if I was alright. I could not respond. When I finally came to a better

DESCRIPTION OF THE INCIDENT -VA Form 21-0781a

conscience, I was told that I was in the hospital. I was in a lot of pain all over, but specifically from my rectum. A few days later, I was seen by a doctor who asked me what happened. I responded that I was raped. I literally felt the words as they came out of my mouth and I shut down. Although the rape and trauma that I experience was reported to the Military Police Department; however, the incident was never investigated by then to my knowledge. I wanted to go home. I suffered even attempting to take a shower. I couldn't be around other men because I would suffer panic attacks. When it was time for formation I was terrified I knew I would have to face my attacker. I suffered consistent nightmares. I turned to drugs and alcohol to numb myself which eventually caused me to contract HIV. This also led to me having anal fissures which eventually eventually caused me to be diagnosed with rectal cancer. I can now say I am in remission from my drug and alcohol addition since 2007 to present and am receiving on going treatment for my sexual trauma. I have graduated from

the SARP program at Manhattan VA Medical Center. I pray that with continued treatment and counseling I will be able to continue move forward and function appropriately having to deal with the physical, psychological, and traumas that I endure daily.

Following the incident I have experienced having to seek continuous external and internal physical and psychological medical care privately and throughout the VA network. After a professional tenure of eleven years of service to the VA I could no longer maintain my employ due to the continued issues from this situation. During my professional services I had attendance issues that caused fellow colleagues to have to donate time to help me. This of course, effected my performance evaluation, economic and social stability, and caused an increase of pharmaceuticals, drug and alcohol abuse, medications in attempting to endure to try to live as normally as possible, I turned to drugs and alcohol. Unfortunately this lead to medical issues. Needless to say all of this caused estrangement with in my immediate and extended family and social dynamic causing me to roller coaster ride alone.
