

# GIZA CYDONIA STAR GATE

## PLEIADIAN PYRAMID PATTERNS

*A Study in the Celestial Correlations of the Stars*

by Luis B. Vega

The purpose of this study is to suggest that the entire core of the Giza Pyramid Complex in Egypt is constructed to Mirror the Cydonia, Mars Pyramid Complex. After all, Cairo which is adjacent to Giza, means 'Mars' and it is associated with the God, Ares or the God of War. What this study suggests is that the entire Mars Triangulation corresponds to the entire Giza Pyramid Complex with the 3 Main Structures of Cydonia in Mars. The Cydonia, Mars Triangulation is made up of 3 Main Structures to include the Face of Mars, or that of Ala-lu, the 7 Main Structures of the Pleiadian Pyramid City and the Pentagon Pyramid.

These Structures are approximately replicated onto the Giza Pyramid Complex when superimposed from a Top View. Both the Earthly and Marian Layouts also correspond to the Northerly Direction, although the reflected motif on Giza is inverted 180 degrees and rotated about 72 Degrees. The various Ley-Lines of each also correspond to similar Angles and Degrees. There are a few slight variations that will be noted. As to the Martian Triangulation over Giza, the Face of Mars corresponds to an oval-like Configuration made in the Desert and to the West of the Pyramid Complex.

The Pentagon Pyramid corresponds to a patch of Greenery in a Pentagram Outline to the East, at the Edge of the Desert. By far, the most interesting aspect of this Martian Pattern, superimposed on the Giza Plateau, is that of the Pleiades Pyramid City that corresponds to the 3 Pyramids of Giza. The Pleiadian City Star Cluster on Cydonia, Mars, is corresponding exactly, in-sync, with the Geometry and Angles of the 3 Pyramids which are Khafre or the Great Pyramid, Khufu and Menkaure. The approximate length of the 3 Pyramids corresponds to the Length or Span of the Pleiades Star Cluster. In turn, the Giza 3 Pyramids comprise an Encrypted Pentagram as it does on the Martian Pleiades Pyramid City.

The 5 Points of the Pentagram correspond to the corners of the 3 Pyramids of Giza, the Sphinx and the Ley-Line of the Inverted Triangle constitutes the Hexagram. At the core of this Geometric Pentagram is the Star Maia, that correlates to the Tomb of Osiris. Directly South of the Maia Star, correspondence is the Star Asterope. This Star is said to be the 'Gateway' Star that leads to the core of the Pleiades. In the Giza Configuration, this Star, Asterope, is on the very Ley-Line of the Inverted Triangular Base that construes the Hexagram of the entire Giza Pyramid Complex. Perhaps there is a Corresponding Structure buried in the 'Sands of Time', that needs to be excavated and that could be shown to be some sort of 'Stargate' perhaps. The Star Taygete corresponds to the Sphinx.

## Fields of Mars

The Star Atlas, corresponds to the smaller of the 2 Pyramids, Menkaure or Mintaka of Orion. The Star Alcyone, which is the most prominent Star of the Pleiades, corresponds to the Southeast Corner of the 2nd Pyramid, Khufu or Alnilam of Orion. The Star Merope correlates to the Halfway Point between the Great Pyramid, Khafre or Alnitak of Orion and the 2nd Pyramid and is on the 45-Degree Slope Ley-Line. The Star Electra corresponds to the Southeast Corner of the Great Pyramid and so on. What is also Amazing, is that the various other Lesser Structures of the Martian Pyramid Complex are replicated at the Giza Plateau.

For example, next to the Face of Mars is a prominent Oval Structure with 4 smaller Ovals at each corner. This Structure on Mars is also correlated next to the Oval Depiction on Giza's version of the Face of Mars. Next to the Pleiadian Pyramid City, to the North is a Structure and to the Northeast of it are 2 other Pyramid-Shaped Structures. One is a sort of rounded Triangle adjacent to another 'Heart' shaped Triangle like Structure. The following are some Approximate Measurements taken from Google Earth Coordinates.

*Great Pyramid to Khufu = 555 Meters or .33 Miles*

*Great Pyramid to Menkaure = 999 Meters or .52 Nautical Miles, same slope of Great Pyramid*

*Great Pyramid to Sphinx = .33 Miles or 1776 Arcseconds*

*Great Pyramid to Osireion = 666 Yards or .33 Nautical Miles and 360 Smoots*

*Great Pyramid to Face of Mars area Depiction = 66 Arcseconds and 1.11 Nautical Miles*

These 3 Structures on Mars are replicated to the North of the Great Pyramid in the same general outline. There is also a Massive Structure in-between the Pyramids of Giza and the area corresponding to the Pentagon Pyramid Greenery Patch of Land. This corresponds to the Structure that is also in-between the Pleiades Pyramid City and the Pentagon Pyramid on Mars. This Triangulation comprises the Hexagram as a 2nd Triangle of the same Proportion is inverted upon itself.

The Triangulation of the Martian Pattern, corresponds to the Alignment Angle of the 3 Pyramids of Giza that have a 45-Degree Angle. The Apex of the Hexagram corresponds to the Center-Point of the Great Pyramid. The Hexagram Motif constructed at Giza, is a bit Elongated but this provides a Proportion that incorporates the 'Serpent' Motif that is also found in many of the other Sacred Sites around the World in the same Form or Fashion. In most cases, it was a River that construed this Martian Motif on Earth as a Star Gate into other Dimensions, perhaps.

In Modern Times, such Cydonia, Martian Triangulations have Freeways or Avenues that depict this 'Serpent' weaving within the 'Hexagram'. In the case of Giza, the 'Serpent' Motif, corresponds to the span of the Bases of the 2 Triangles that construe the Hexagram from a Top View. The Starting Point and Ending Point meet at such ley-lines. The 'Serpent' Design with a 'S' Curvature is made by a Road leading to the Spot where the 'Face of Mars' is situated. What is Astonishing, is that no other Celestial Motif from any other Planet but Mars, and no other area, but the Cydonia Complex on Mars has been Replicated from ancient Times on Earth.

What has already been discovered by many Researchers is that the 3 main Pyramids of Giza, pertain to the Celestial Belt Stars of Orion. In fact, the whole Nile River course-way, Mirrors the Galactic Meridian or the Milky Way with various Egyptian Pyramid Complexes that in turn, Mirror the Corresponding Constellations. It is Amazing that the Geometry of the Cydonia, Mars Triangulation Layout over the Giza Plateau and in all other Sacred Sites on Earth, have not been 'Discovered' yet. This is aside from those that intentionally put it there, since the Pyramids were constructed and those that keep such a Cydonia, Mars Triangulations, Encrypted with modern Ley-Lies that match it still.
