

US CAMPAIGN FOR PALESTINIAN RIGHTS

Divest from Violence; Invest in Justice for All

WASHINGTON, DC, June 23rd, 2020

Led by the US Campaign for Palestinian Rights (USCPR), Adalah Justice Project, MPower Change, Friends of Sabeel North America (FOSNA), Jewish Voice for Peace Action, Democratic Socialists of America-Palestine Working Group, Students for Justice in Palestine: University of Massachusetts-Amherst, and Eyewitness Palestine, 66 progressive organizations responded to the Black Lives Matter uprising and Israel's threat to annex more Palestinian lands by calling on Congress to divest from militarism and policing, from the US to Palestine.

Dear Members of Congress,

We, the undersigned organizations committed to shaping policy towards justice for all people, call on Congress to take concrete steps to hold Israel accountable for its stated plans to formally annex the West Bank, as well as for its ongoing military occupation, displacement, and oppression of the Palestinian people, by ending US military funding to Israel. Further, we call on you to stop the flow of federal dollars to local police. These demands stem from our united commitment to divest from militarism and instead invest in community needs, like education, housing, and healthcare for all, in order to create safety and justice for all.

The U.S. investment in militarism and policing of communities of color is global, and so our vision for justice policy must be shaped by our commitment that racial justice has no borders. Just as we join in the demand for our tax dollars to be divested from brutal police violence and a repressive military response to protesters asserting that #BlackLivesMatter, we call for an end to U.S.-funded violence abroad.

The Israeli government has clearly stated its intent to formally annex parts of the West Bank - a process that has been de facto underway for decades. Annexation is a war crime that will undoubtedly result in continued violence against Palestinians, including in the forms of home demolitions, displacement, and land theft. Our tax dollars must go toward

the desperately needed PPE for healthcare workers caring for our communities, financial relief for undocumented and indigenous people, and meeting the needs of the global climate crisis by implementing policies like the Green New Deal.

Firstly, we call on you to take concrete steps to hold the Israeli government accountable for its ongoing human rights violations and oppression against the Palestinian people by ending the annual flow of \$3.8 billion in military and weapons funding.

We are deeply disappointed that the Senate Committee on Foreign Relations has chosen this time to prioritize passage of S. 3176 the United States-Security Assistance Authorization Act of 2020. Rather than demanding accountability, passage of this bill - and its companion in the House H.R. 1837 - sends a message that Israel can take any action with total impunity. We ask that you speak out firmly against S. 3176/H.R. 1837 now and oppose the final legislation should it come to a vote. Now is the time to hold the Israeli government accountable and show that the U.S. will not fund ongoing Israeli military injustices.

Secondly, we call on you to uplift the vision of safety first advanced by the Movement for Black Lives, to divest from policing and militarism and instead invest in Black communities by reallocating resources to community-led safety initiatives, education, housing, and healthcare for all. Concretely, this means immediately amending the HEROES act to defund the \$300 million for the Community Oriented Policing Services (COPS) program, and working to end it entirely. It also means taking further federal action to advance the vision laid out in the 8 To Abolition policy demands.

As we build a new future coming out of this pandemic, we must build towards justice and safety for all people—from the U.S. to Palestine.

About the US Campaign for Palestinian Rights

The [US Campaign for Palestinian Rights \(USCPR\)](#) is a national network of activists and organizations who are committed to freedom, justice, and equality for the Palestinian people and who work to end U.S. complicity in their oppression. USCPR is a political home for all who believe that freedom for the Palestinian people is an integral part of achieving our collective liberation. USCPR provides resources and strategic support to the U.S.-based Palestine solidarity movement, channeling grassroots power into positive change in U.S. policy and public opinion. USCPR works with local organizers and activists, policymakers, movement leaders, media, and advocacy organizations to advance a rights-based, accountability and justice-oriented framework from the U.S. to Palestine.
