

THE VIRGINS OF HYADES

VENUS 'CROSS' WITHIN THE CONSTELLATION TAURUS

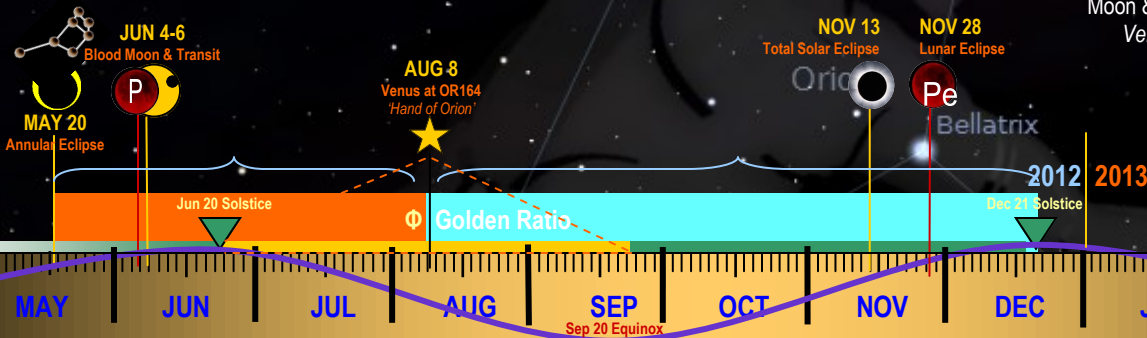

The purpose of this illustration is to highlight 2 key and unique properties of the *Transit of Venus* trajectory. Several elements of the trajectory will be examined in a Judeo-Christian context associated with the 1) Biblical symbolism and parallels of the '5 Wise Virgins' and 2) the 'CROSS' Conjunction of Venus on JUL 15. To some Christian communities, this rare celestial occurrence, of the 'Cross' alone, can be attributed to the continued clues the LORD is presenting to His Church in these 'Last Days' before the Rapture occurs. The piecing together of the 'Picture of a Rapture' or a *snatching-away* seems to be written in the Heavens before Time began by the very Hand of Christ.

The elements of Venus' trajectory that led up to the JUN 5 Transit still had many peculiarities about Venus' trajectory that bare mentioning. There have been some excellent scenarios presented on Rapture Forums alluding to the 'Spiritual Metaphors' of a possible Rapture Picture. The Planets and their positions as it relates to the Transit of Venus does provide a compelling sequences to take note of. What many have overlooked is that the region of Star Clusters called the **Hyades** has a possible and significant 'Rapture' clue as well. It is well known and documented that the Pleiades are an arch-type of the 7 Churches of Asia that represent the 'whole' Body of Christ collectively as its name connotes the 'Congregation' even.

Taurus also has another 'picture' or type of the Church. In the midst of the Bull's Head there is a cluster of 5 Stars that configure the V shape of the Horns. Perhaps these are alluding to the 5 Virgins that Christ will only take at the Rapture. Here is the synopsis according to the typology discerned from the trajectory of the Transit of Venus: Christ comes for His Church -the Pleiades, but He takes only those that are 'prepared' -the Hyades. He takes the 5 Virgins of the Hyades, that were prepared at His Calling, safely in His Hand -to OR164 and through the Celestial Gate -Silver Gate. This is not to declare that the Rapture will happen anytime as Venus is in the Hyades or on a particular date. Venus is scheduled to move out of the Hyades on the 7th of JUL (7-7). There are other theological views asserting that ALL Believers in Christ regardless of their spiritual condition will be Raptured. That is for another study; suffice to say that just given this celestial 'picture', the logic would follow that Christ as Venus, is the Bright and Morning Star sweeping through the Hyades for '5 Virgins'.

SOME PECULIARITIES OF THE AUG 8 CONJUNCTION OF VENUS AT OR164 OR ORION'S HAND ...

- is in Phi Ratio from the Annular Solar Eclipse of MAY 20 to the Winter Solstice of DEC 21.
- is precisely in the midst of the JUN 20 Solstice & the SEP 20 Equinox.
- is almost mid way between JUL 3-4 Full Moon & JUL 19 -20 New Moon.
- Is in proportions from MAY 20 Annular Eclipse to NOV 13 Total Eclipse as difference between distance of Perihelion to Aphelion of our Sun.

INDEPENDENCE DAY

The Earth's course around the SUN is not a perfect circle. There is a long distance and a shorter distance, a difference of 5000 miles. The date is also the Perihelion or when the Earth is closest to the Sun. It so happens that not only is the 4th of July deemed USA's Declaration of Independence, but it is 9 weeks from May 1, or a 'term' from whence the ILLUMINATI was initiated in 1776—the Year of USA's Independence. The Illuminati have their Emblem on the Reverse Seal of the USA:

Every year on July 4th, from Earth's position, the Sun is in conjunction with Sirius. The Dog Star. To the occult, it is well recognized as the companion to Orion or Isis, etc. It is no coincidence that many of the Founding Fathers of the USA were Masonic and had secret knowledge of celestial positions that are very significant to their dealings. For example the WASHINGTON MONUMENT is built on this alignment.

ORI64
Although a 4 day difference from the 2004 Transit, Venus still ends up in the 'Hand of Orion' on the same date: AUG 8 (8-8).
The Number 8 = Resurrection

CHRIST THE MESSIAH DIED ON THE CROSS

THE 'SIGN OF THE CROSS'

In many connotations over the centuries of the Church Age, the Cross came to represent the 'Body of Christ'. What is particular about this Transit of Venus, is that on JUL 15, one of its many conjunctions forms a Cross dead center in the Head of Taurus. This did not occur in the Transit of 2004 and is very unique.

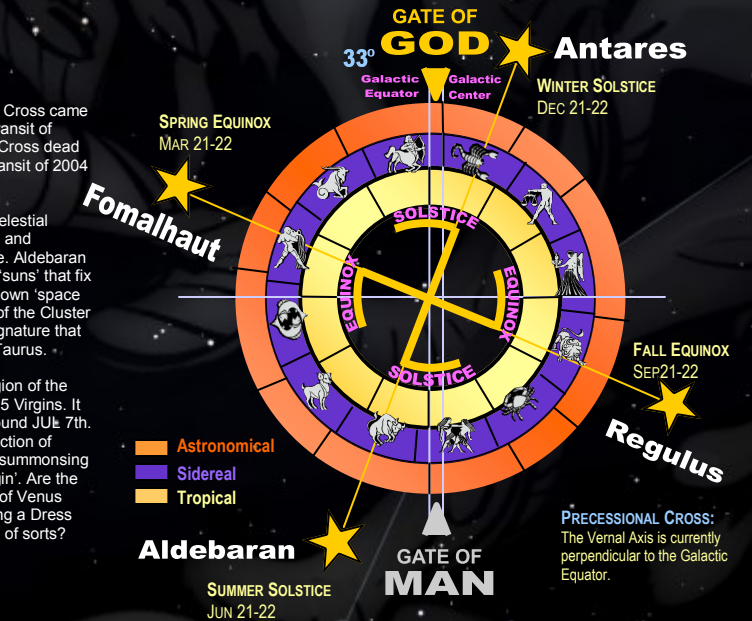

Although it does not constitute a tradition Celestial Cross, the key elements of the Full Moon and Aldebaran's 90° angle make it very rare. Aldebaran happens to be one of the 4 celestial 'suns' that fix the universal coordinates of our known 'space and time'. Aldebaran is not part of the Cluster but completes the 'V' shape signature that is universally recognized in Taurus.

Venus traversed the Region of the Hyades, known as the 5 Virgins. It will leave this area around JUL 7th. Perhaps it is a depiction of Christ as Venus, summoning the 5 'Wise Virgin'. Are the Conjunctions of Venus thus signaling a Dress Rehearsal of sorts?

JUN 5-6
CHRIST GLORIFIED AS THE SON

VENUS: BRIGHT & MORNING STAR

VENUS: BRIGHT & EVENING STAR

THE PARABLE OF THE 5 WISE AND FOOLISH VIRGINS
The Parable appears in only 1 of the Canonical Gospels. In *Matthew 25:1-13*, the 5 Virgins who are prepared for the Bridegroom's arrival are rewarded, while the 5 Virgins who are not prepared were excluded from the Marriage Feast.

There is debate if they are the 'Bridesmaids' given the honor of attending the Wedding of the Bride or are a 'representation' or metaphor for the Bride herself. Most agree though that it is a *Call to Readiness* for the LORD's summoning. It is interesting that no reprimand was given for falling asleep or growing weary. The Lesson from Christ was to head the warning of not being
