

NEW PRODUCT RELEASE

Pop-Link® Mounting Systems by ADandD is excited to announce the newest product to our Bracket Series!

Introducing
THE "SPENCER"

P/N PL-AB3

CELL PHONE AND TABLET BRACKET

The PL-AB3 Bracket has been designed for The PL Series only. It is a special product designed to suit your needs for special applications where you need to mount a phone or tablet up to 6.8 inches wide.

This adapter bracket has been a highly requested product. Several customers were looking for ways to mount their tablets on fork trucks, ways to take videos of machines running without having a shaking hand, and for reliable and sturdy recreational use on motorcycles.

The PL-AB3 mounts directly to our PL-BALLBASE. Hardware for the PL-BALLBASE (sold separately) is included with the PL-AB3. The PL-AB3 is made using anodized aluminum, held together with steel rods and stainless-steel fasteners.

Please contact us with any questions... we look forward to your inquiries!
