

Hey y'all!

My name is Michelle and I have been part of the Jump! family since 9/2017! I have background in recreational gymnastics since I too did it for four years back in the day! I've been in love with gymnastics ever since I can remember. I believe that this is a sport that every child should try at least once! I can say without a doubt that gymnastics is probably one of the hardest sports out there, but with the help of our great coaches here at Jump!, its broken down into pieces that make the skills less intimidating! Gymnastics allows kids to see growth and shows them what their bodies are capable of!

Gymnastics isn't the only interesting part of my life I also attend UT. I plan on graduating in 2020 (which is a pretty cool year if you ask me) with a bachelors in HDO. Outside of school and work I'm raising an adorable little catahoula puppy named Beans who is my whole life!

FUN FACT: I have a growing plant collection at home!

- Coach Michelle
