

WING ARCHERY/1967

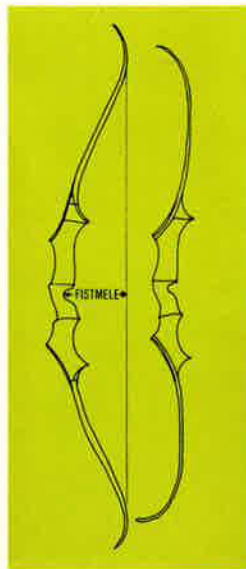

Featuring all-new Lockwood—the atomic
wood that's five times stronger.

PRESENTATION II

Take a good look at the bow that made tournament news last year. It's the one that's many bows — Wing's finest, the PRESENTATION II. You have the same familiar handle grip in the PRESENTATION II — but what a handle it is this year. Contoured from all-new Lockwood — an atomically cured wood that's five times stronger than the untreated woods used on today's fine bows. And Lockwood gives you the 60% extra mass weight you've been asking for.

The unique limb coupling feature of the PRESENTATION II lets you change weights or lengths in minutes. Makes it easy to switch to a set of back-up limbs on tournament days — or make economical repairs. You have a target limb selection of 50 lbs. in 66" and 69". And you can add a second set of matched limbs for just \$64.95. Take your choice of three PRESENTATION II handles in deep black Lockwood: standard (unless otherwise specified), lo-wrist or hi-wrist. For safe-keeping, you'll like Wing's compact carrying case for the PRESENTATION II.

PRESENTATION II

\$150.00
Lengths: 66" and 69"
Weights: to 50 lbs. at 28" draw length
Draw limit: none
Fistmele: 8½"-9½"
Riser: All-new black Lockwood
Glass color: white
Handle sizes: standard, lo-wrist, hi-wrist
Custom bow case: \$29.95
Extra set matched limbs: \$64.95

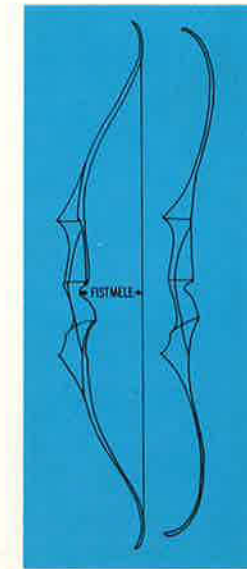

PRESENTATION I

Here's proof that greatness runs in the family — the PRESENTATION I — a further refinement of Wing's famous Presentation bow. The original, you may remember, has been acclaimed by serious tournament archers as the ultimate in balance and stability. The PRESENTATION I has the same limb design as the earlier model plus a new contoured handle of African rosewood and all-new jet black lockwood. We think you'll agree the PRESENTATION I has the look and feel of a winner. Wait till you see how it handles when the tournament pressure is hottest. Comes complete with padded carrying case at your Wing dealer.

The Presentation I & II are lockwood treated bows. Riser sections are impregnated and atomically hardened for greater strength, mass weight and resistance to abrasion and moisture.

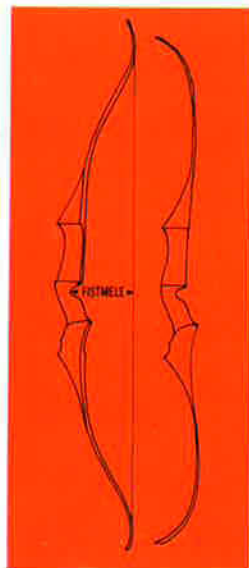

PRESENTATION I

\$115.00
Lengths: 66" and 69"
Weights: 50 lbs. in 28" draw length
Draw limit: none
Fistmele: 8½"-9½"
Riser: African rosewood and all-new black lockwood
Glass color: white

WHITE WING

Some bows are beautiful. But they don't do much when it comes to performance. Some bows have that extra thrust, but delivery is something else. And some are smooth, but they pack no power. The tough problem is designing all these qualities into a bow and selling it for \$89.95. That's why the WHITE WING is something special. It has thrust and it has smoothness because the mass is "out front" in a larger riser section; the all-new Lockwood anatomical handle gives you more mass weight to hold you on target; and there's complete working action in the limbs. You have to admit the WHITE WING is no ugly duckling either. Its sandal lockwood riser and white glass are upper class! You really have to handle this bow to appreciate it. We guarantee you a shooting surprise.

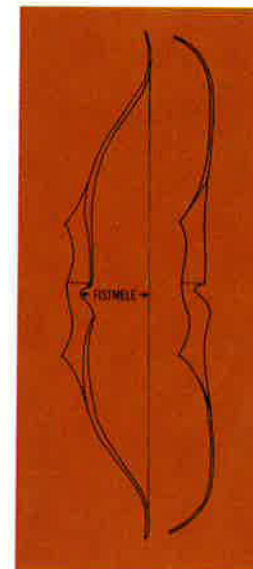

WHITE WING \$89.95
Lengths: 66" and 69"
Weights: to 50 lbs. at
28" draw length
Draw limit: none
Fistmele: 8½"-9½"
Riser: all-new sandal
lockwood
Glass color: white

Lockwood treated bow riser section is impregnated and atomically hardened for greater strength, mass weight and resistance to abrasion and moisture.

SWIFT WING

How can either side of the family be a stay-at-home this year? It's the year of the SWIFT WING — the fine bow for the serious archery family. This is no dainty bow. It has heft and feel. But at the same time you don't need to be a female Atlas to share the SWIFT WING with the male archers in the family. The SWIFT WING has the common denominators everyone looks for in a bow . . . speed and accuracy that come with full working recurves and duo-flexed limbs. Add to this a regal handle and riser section of imbuia, a palm rest (at no extra cost) and an extra long sight window — and you can see why this is the year of the family bow.

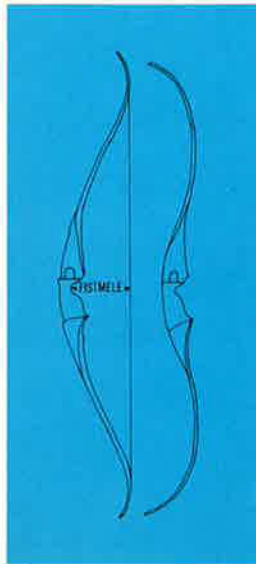

SWIFT WING \$59.95
Length: 66"
Weights: to 50 lbs. at
28" draw length
Draw limit: none
Fistmele: 8¼"-9¼"
Riser: imbuia
Glass color: white

THUNDERBIRD

You asked for it. Wing designed it this year . . . the long and the short of the famous Red Wing Hunter. It's the all-new THUNDERBIRD — a Lockwood handle bow with the stability and smoothness of the Red Wing Hunter now in 52" and 62" lengths with weights up to 70 lbs. The 62" bow has a full sight window for those who prefer hunting with a sight. The 52" THUNDERBIRD is the compact bow that can go places. It's easy to handle in tight brush or out of trees. And don't let the size fool you. This bow is fast and deadly. Both of the new THUNDERBIRDS have the speed you need for the kill. Look them over at your Wing dealer.

THUNDERBIRD \$69.95
Lengths: 52" and 62"
Weights: to 70 lbs. at
28" draw lengths
Draw limit: none
Fistmele: 8 1/2"-9 1/2"
Riser: all-new black
lockwood
Glass color: black

Lockwood treated bow riser section is impregnated and atomically hardened for greater strength, mass weight and resistance to abrasion and moisture.

RED WING HUNTER

You can't expect thousands of hunters to keep a secret. Since Wing first introduced the RED WING HUNTER many, many hunters ago, the bow has been imitated right down to the nocks. But somehow the imitations fail to measure up to original. We keep right on making RED WING HUNTERS — and bow hunters keep right on telling that no other bow can match it. Maybe that's because the RED WING HUNTER has all the qualities you expect in a bow hunter's weapon. It's never awkward in a tight situation and when you're ready for that all-important shot, it delivers smoothly with quiet, deadly power. And back home in the den or trophy room, it stands out quietly with an all-new Lockwood handle in rich sandal finish. The RED WING HUNTER is also available with a bubinga riser for \$49.95.

RED WING HUNTER \$59.95
Length: 58"
Weight: to 70 lbs. in
28" draw length
Draw limit: none
Fistmele: 8 1/4"-9 1/4"
Riser: all-new sandal
lockwood
Glass color: brown

RED WING HUNTER with the bubinga riser: \$49.95

Lockwood treated bow riser section is impregnated and atomically hardened for greater strength, mass weight and resistance to abrasion and moisture.

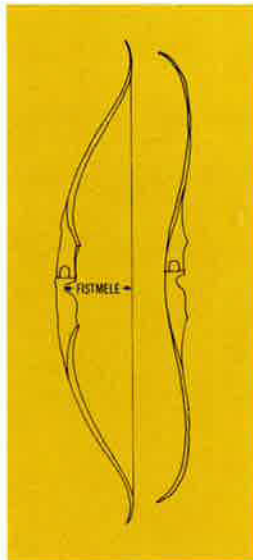

GULL

It's no small feat when you design a bow for less than \$40 that looks and performs like a high-priced bow. That's what's great about the GULL. For looks, it has a rich imbuia riser and brown glass. To deliver the arrows, you have full working recurves that give you smooth, stable action. The GULL's long draw effectiveness makes it a fine man's bow. Its short draw effectiveness is what the ladies like about the GULL. We guarantee you'll like the price and the amount of enjoyment you'll get from this all-purpose bow.

GULL

\$39.95

Length: 64"
Weights: to 60 lbs. at 28" draw length
Draw limit: none
Fistmele: 8"-9"
Riser: Imbuia
Glass color: Brown

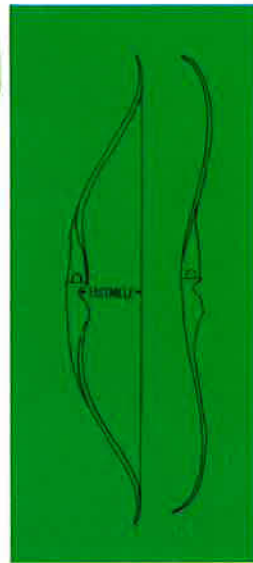

FALCON

FALCON is a made to order bow for the "now and then" archer who wants fine equipment at a practical price. The FALCON has full working recurves and a form-fitting handle — features you normally expect from an expensive bow. The riser section is made from exotic hardwoods. Add to this colored glass facing, a wide overdraw and a full center-shot sight window and you have a great shooting bow at a very reasonable price.

FALCON

\$29.95

Length: 62"
Weights: 20 to 50 lbs. at 28" draw length
Draw limit: none
Fistmele: 7 1/8"-8 1/2"
Riser: Assorted hardwoods
Glass color: assorted

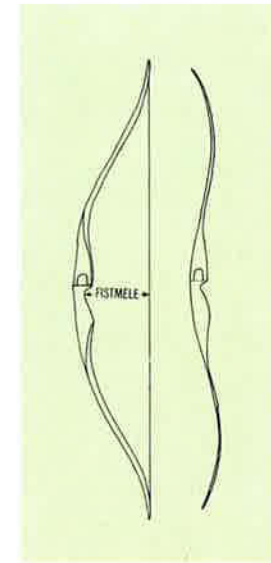

NIGHTHAWK

For the archery newcomer, here's our all-new NIGHTHAWK — a semi-recurved bow designed to give you the feel of archery. It's plenty of bow to start you off, yet not too much bow to give you beginner's discouragement. The handle, crafted from Northern hardwood maple, is form fitted to give you the feel of an expensive bow. Limbs have colored glass facing. Ready to try your luck?

NIGHTHAWK

\$22.95

Length: 60"
Weight: 15 to 35 lbs. in 5 lb. increments at 28" draw length
Draw limit: none
Fistmele: 7 1/8"-8 1/2"
Riser: hardwood maple
Glass color: assorted

CUSTOM MATCHED ARROWS

"The Choice of Champions and Bowhunters Alike"

In bowhunting or tournament shooting extreme care should be taken in selecting of your arrows. They are the most important part of your archery equipment and mean the difference between a hit or a miss. Consistent shooting of close-groups cannot be done without arrows perfectly matched for your bow. Whether you choose the finest, mirror-smooth cedar shafts, beautiful rugged glass or the highest grade aluminum arrows, WING gives you the very best. Thousands of the finest cedar, glass and aluminum shafts are kept on hand at all times enabling us to select perfectly matching arrows time after time. Highest quality is assured with the latest equipment. Each arrow is electronically matched, precision fletched and beautifully crested. The workers at WING are all skilled craftsmen that take great pride in their work. This **quality craftsmanship** is yours when you select WING arrows.

HOW TO CHOOSE THE CORRECT ARROW FOR YOU

There are several generally accepted methods of measuring the proper arrow length for an archer. Of these, we at WING feel there is only one reliable, accurate way that gives the correct arrow length every time—this is by DRAWING A MEASURING ARROW in a bow. Where the arrow comes in relation to the back of the bow determines the correct arrow length (see drawing).

Arrow lengths will vary depending on the type of point used. Refer to CHART at right to determine your correct arrow length.

When ordering arrows, specify bow weight, the type of arrow and your draw length.

WING HAWK **\$72.00 per 72**

This is Wing's Special \$1.00 Hunting Arrow, ready to use with single-blade Razorhead® attached. Spined at 40/50 lbs. with overall length of 29" to back of head. The large 5 1/4" helical feather makes it a perfect hunting arrow. Available in attractive Wing dealer display carton holding 72 arrows ready-to-shoot.

WH-72\$72.00 per 72

WING-EASTON **\$29.50 doz.**

Specify bow weight and arrow length when ordering.

This is the very finest tournament arrow available. Made with Easton's famous superior-proven, precision-made tubing and beautifully crested with Wing's new color-matched crest, accented with contrasting silver pin-stripes. Spiral fletching with white or dyed-white feathers. Available in 22 sizes of 24SRTX standard wall or thin wall. Helical fletch available — no extra charge.

HOW TO ORDER

Wing orders are filled with all care and speed possible. To avoid delays, please check your order carefully before mailing making sure you have furnished all catalog numbers and needed information. Prices are f.o.b. Jacksonville, Texas within U.S.A. for all orders of less than \$150.00.

Orders in excess of \$150.00 are shipped f.o.b. destination.

All prices are subject to change without notice.

Your local WING DEALER takes pride in helping you select proper equipment. If no dealer is nearby, write us. **MINIMUM ORDER \$5.00.**

C.O.D. ORDERS—All orders will be shipped C.O.D. unless satisfactory credit has been established or full payment is sent with the order. All C.O.D. orders must be accompanied with a deposit of 25% of the total amount of the order.

RETURNED ITEMS—Wing Archery Company will not be responsible for any items shipped to the factory, which are not covered by adequate insurance, and then only to the extent of the insurance applicable to said items. A 10% service charge will be made on any items returned to Wing Archery Company for credit.

IMPORTANT. Restrictions on size and weight of Parcel Post packages do not apply on shipments to or from our mailing address—Wing Archery Company—Rt. 1, Jacksonville, Texas.

BOW GUARANTEE

Every Wing Bow is numbered and accompanied by a registration card which must be filled out and mailed by the Wing Dealer within 10 days after date of purchase. Should failure occur in a bow so registered within a period of 6 months after date of purchase, the Wing Archery Company will make free repair, or replacement if repair is not feasible, unless the bow shows evidence of mis-use or improper handling. The bow serial number must be intact. After 6 months and up to 18 months after the purchase date, and provided the bow has not been mis-used or mis-handled, repair or replacement will be made for 50% of the list purchase price. From 18 months to 36 months after purchase date, the charge will be 75% of the purchase price. No adjustment will be made until the damaged bow is returned to the factory for inspection. Replacement will be made with a bow of the same model and weight, as near as possible. This guarantee is valid only when purchase has been made through an authorized Wing Dealer. Dealers are not authorized to make adjustments, but will be glad to handle shipping and correspondence.
