

Day by Day

One of the most often described attributes of God is His truthfulness. God never breaks His Word. When He says something, He follows through regardless of the circumstances! No matter what happens in your life or in the world around you, God's love is there for you. God does not only give love, He is the source of love (1John 4:10).

God sees everything. He sees what you're going through. He see's what you're struggling with. No matter how tremendous the trial. You don't have to do one thing to earn GOD'S LOVE... You don't have to wonder if GOD loves you or not, He does. You may not always understand why He loves you, but you can be confident that His love is covering you.

God's plan for your life isn't a map you see all at once. It's like a scroll that is unrolled a little at a time, and His love for you keeps things moving. Our circumstances may be different, but the fundamental principle is always the same. God's LOVE is bigger than any battle we face.

"No, in all these things we are more than conquerors through him who loved us" Romans 8:37.

How you view His love for you can impact the direction or how you walk out the trials in you life. If you rely on God's love, He will bring you to a place of victory regarding your situation. His love- changes everything! His love causes you to overcome every challenge. His love for changes things!

God's extraordinary love, generously gives you life and significance for living. His Love is true love and you can always depend on Him because His love NEVER fails. Time and time again, God re-assures His people that in their most trying moments, He sees them.

"In this the love of God was made manifest among us, that God sent his only Son into the world, so that we might live through him" 1 John 4:9.

The Word is clear, HE loves you with an everlasting LOVE. Everlasting means exactly that, His love for you is never ending. God loves you. HE always has and HE always will. Nothing can change that ever. God wants you to live life on the reality of that His love never fails!
