Effective Date 10/15/2018

Terms

- Before ordering, please phone 321-972-2558 regarding the purchase of any these products. Prices do not include shipping costs, packaging/crating costs, extended storage, or state sales taxes (if applicable). Installation complexity and equipment vintage are other important considerations. Proposals on request. Proposals valid for 60 days.
- Make checks and money orders payable and send to:
SeriousExercise, LLC
146 Jewel Drive
Altamonte Springs FL 32714
- Purchases of less than \$1,500.00 require full payment at time of order placement. Purchases over \$1,500.00 require a 70% deposit to begin production and payment in full by certified funds (cashiers check) is required **before** delivery. Initial deposits are also expedited by the use of certified funds, since production is commenced only after monies are cleared by local banks. Even money orders have been held up by the banks. Since major financial outlays are made predicated on customer deposits, refunds are denied once production begins. Credit Card payments are not accepted.
- Finish is white powder coat. Upholstery is black Naugahyde.
- Standard delivery is 120 days after clearance of deposited funds.
- Demand for prototypical products may, at times, push a finished product to fruition if the customer's needs can be met with the understanding that longer delivery times are required.

* Until fuel supplies become stable, a temporary fuel surcharge on all shipments will be a possible factor in the final delivery charge to allow recovery of excessive fuel costs incurred in the performance of hauling freight from pickup in Altamonte Springs to delivery to your doorstep. At the time of your acceptance and deposit, we will ask the carrier to lock in a charge based on the date of anticipated delivery and the load's origination point and ask for any additional fuel surcharge that may be incurred in the balance due.

Any fuel surcharge will be shown as a separate entry on your confirmed balance due in addition to the locked in price with the delivery company. The computation of any additional fuel surcharge is based on a fixed rate and will reflect the extra cost of the fuel used in your specific delivery. You can track fuel prices at <http://tonto.eia.doe.gov/oog/info/wohdp/diesel.asp>
