Don, What a nice bow! I have really enjoyed shooting it the past couple of days. Thank you! Steven in So Carolina

Hi Don, Thank you for your email. Your bows are the best and so much more in terms of fun, history and classical traditional archery. John in MA

Hello Don, Bow came yesterday and great shape, thanks for the string also....Love the vintage bows they can hold their own against almost all the so called "customs" for shootability etc. Take care. Steve in WI

Hello Don, With a break in the bad weather, I got out to shoot the new Ranger. I'm very happy with it. I scored my highest score ever in the second round. I'm shooting at a regulation target at 25 yards, and this bow sustains or even improves my accuracy. I like the aesthetics of the bow; it's an easy draw for me; it compares very favourably, in no way inferior to the Bear Temujin, which is my highest class bow, which I have at 36#. The SPEED' of the arrows is quite satisfactory with this bow. I've placed a furry pad on the shelf and it works fine. What a beauty of a bow, and happy choice.Anyway, I'm one happy customer at this point. Roger in Ontario Canada.

Don.....received the bow today. Mail has slowed with the virus. Bow looks and shoots great. You described it well on the site. Thanks. Jason in CT

Hey Don I just wanted to let you know that Mustang is sweet. It shoots where it is pointed and I shot it so much on Sunday I got a blister on my finger. Brian in AZ

Bow received in good condition, string was perfect for an 8" brace height. Hit the 10 ring on my 3D target multiple times from 15 yards, very happy with it. Thanks! Paul in IN

Just received my Damon Howatt bow. Love It! Priscilla in GA

Don, I think this bow was made for me! Arrived yesterday, strung it as soon as I got home and put 25-30 arrows down range in my backyard. I love the grip, fits my big paws nice. Super smooth shooter, and thanks for the bowstring and rest, wasn't expecting that. Couldn't be happier with this one! Regards

Hi Don, The bow just arrived in perfect condition and it is a beautiful piece. You did a great packing job. Having knowledge of the vintage market in guitars and firearms, I am amazed the prices for these pieces are so low, especially when you compare the workmanship on current models such as the 'Bear' Grizzly. Thanks again, Brad in TX

Don, I just wanted to thank you for the excellent packaging and prompt delivery of this bow!

The bow arrived a day earlier than expected in perfect condition. It is in even more pristine condition than your description and pics implied on your website!! I was immediately transported back to 1969 when I purchased my first Ben Pearson recurve...too bad the youth factor did not return as well LOL.

Thanks again, and you stay safe as well!!!! Denny in PA

Don, I received the 40# Howatt Ventura today. It was VERY well packaged and protected, and the condition is just as described in your ad. Thanks for the string too. Ron in MO
