November 2018 Newsletter

---o---

Often, we are asked how long our banner stretching system will work or is guaranteed?

This is a legitimate question and today we also can answer it with a real example of a frame originally installed end of 2015 and still there with an impeccable stretch.

This 124' x 10' curved frame was installed end of November 2015 at the Al Lang Rowdies stadium in St Petersburg, FL.

So, three years later, here it is with the same frame and printed graphic on vinyl.

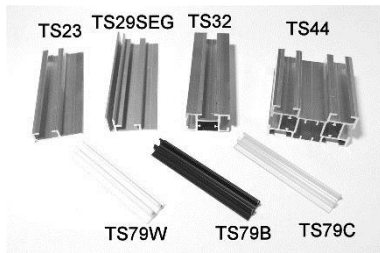

The design, printing and installation were made by OAI Corp in Tampa, FL.

The stretch is impeccable, as you can see on the above photos.

>>> We guarantee our stretching aluminum frames for 5 years.

Extrusions Product Family

We offer a complete solution for building custom indoor and outdoor frames, that tightly stretch banners.

You will be able to fabricate custom signs of any sizes, any shapes and even structures to answer your customers' requests...

[Get a Free Quote Today!](#)
