RVT or Experienced Assistant FT

Are you tired of working for doctors who don't know how to use your skills and education?

Do you thrive on teamwork and professional development?

Are you the "go-to" person for your team when the schedule changes and someone has to adjust priorities?

Do you find it hard to understand why some people see a "mean cat" and you see a fearful cat in a hospital environment?

If so, we have been looking for you! We are an intimate, feline only veterinary practice in Atlanta. We love that a small practice environment allows us to offer specialized care to our clients and their babies. At our practice, you'll use advanced equipment in dentistry, dental radiology, digital radiology, ultrasound and anesthesia on a daily basis.

We offer competitive pay, 401 K, profit sharing, health insurance, holiday pay, pet care discounts, and uniforms.

Associate's Degree Preferred

Licensure Not Required RVT preferred, but we will consider veterinary assistants with comparable experience and knowledge
