James S. Wilson
Managing Partner, Clarion Consulting Group, LLC

Professional Profile

Mr. Wilson has over 30 years of valuation consulting experience and is the practice leader of CCG.

Previously:

- Senior Managing Director with Mesirow Financial Consulting, LLC, where he served on the senior leadership team. His primary focus was providing valuation services to emerging clients.
- Managing Director with Navigant Consulting, Inc. where he served as Deputy National Practice Leader, the International Technical Director for the Valuation Services Practice and the leader of the Financial Reporting Valuation product segment. He provided valuation consulting services to a variety of publicly traded and emerging entities.
- Managing Director with Kroll Zolfo Cooper where he led the Southern California Valuation Practice, served as the National Technical lead for Valuation Services and provided consulting services to a number of high profile bankruptcy and restructure engagements (including Enron, MCI, ATA Airlines, NRG Energy).
- Director with Standard and Poors, PricewaterhouseCoopers LLP and KPMG LLP, where he provided valuation consulting services to a broad range of companies for financial reporting, tax and transaction support purposes. Notable projects include the tax based valuation of the world-wide tangible assets of GE Industrial for multiple valuation dates.

Mr. Wilson has provided valuation consulting services to a broad range of industry segments, with a focus that includes technology, entertainment, internet, communications, manufacturing, construction, and transportation based companies. Valuations include businesses located both in the domestic U.S. and in countries around the World.

Mr. Wilson has a primary focus on performing valuations for financial reporting purposes (ASC 805, ASC 360, ASC 718, Fresh Start Accounting, and other financial statement purposes). His experience encompasses thousands of projects based on U.S. and international accounting standards. In addition, he performs valuations in support of litigation, bankruptcy court, transactions (fairness opinions, capital adequacy and pricing studies) and tax reporting.

Mr. Wilson's expertise includes the valuation of complex securities, preferred stocks, warrants, options, derivatives and convertible debt securities. He also has considerable expertise in the valuation of intangible assets such as technology and customer relationships and has led numerous significant engagements requiring the valuation of tangible assets.

In addition, Mr. Wilson is a lecturer and author on a number of valuations matters, including valuation issues related to financial accounting and emerging companies.
