

COMPANY SUMMARY

- Firmament Solutions was established in Atlanta, Georgia in April 2013. We provide the following services: Office and Computer Facilities Management, Maintenance of Electronic Devices, Installation of Low-Voltage CAT6 cable for Data and Digital Voice Lines, CAT3 cables for Analog Voice Lines, Conduit/Panduit/Surface Mount & Biscuit Jacks, Fiber Patch Panels and Microsoft Office Training to the Commercial, Educational, Government, Institutional, and Industrial sectors. We strive to meet our client's needs while upholding an uncompromising standard of customer service. Firmament Solutions look forward to providing your organization's technical requirements.
- As a minority owned small business, we have obtained the following certifications: Georgia Department of Transportation (GDOT), Disadvantaged Business Enterprise (DBE), City of Atlanta African American Business Enterprise (AABE), and MFBE Certification with Fulton County Office of Contract Compliance, also Clayton County's Water Authority Small Local Business Enterprise (SLBE). Our structure allows us to be efficient and responsive with providing better pricing and greater value to quickly meet your deadlines.
- We welcome the opportunity to work with you and become a valued asset to your organization.
