

# Perfume your wedding day .....

## **How does it work?**

SensMood takes a personality test and a smell test and guides you to a specific fragrance family. Once we narrow down your liking then we customize the selection by pairing it to your venue, style, outfits, decor and so on. We can even match the scent to the menu and drinks being served. We provide free samples for you to try and help you select the best fragrance for your special day. We even can purchase the fragrances for you and deliver it to your door.

Our goal is to help our clients make the right selection that is customized based on quality of scent, preference, price range and pairing that works for their event.

Still unsure with how it works, here is a small example:  
if you are getting married on an elegant Ballroom, then the perfume should be bold and luxe and premium and rich; + match your personality and style of dress, and so on.

Now if you are getting married in the Outdoors, then the perfume should be lightweight, crisp, peony, summer scent perhaps...but we make sure we match the scent to your inner emotion, your personality and your venue.

We do all the work for you for a service fee. But atlas you walk away with a "Signature Wedding Scent Menu!" and you get to relive the beautiful wedding moments emotionally! You can do that for the bridesmaids, brides or grooms mom, or the groom himself!
