

ATTENTION: If your home/property is located outside of the City of Cordele (unincorporated area). Please contact the Crisp County Planning Department 229-276-2640 for an on-site damage assessment of your home prior to any repairs/renovations.

For areas that have property in the Floodplain (Zone A) and had “substantial damage” – damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred may or may not be able to repair/rebuild without elevating the structure per the Flood damage Prevention Ordinance of Crisp County.

There will be no charge for the repair permits caused by the storm but they must be documented and approved in order for Crisp County to remain a participant in the National Flood Insurance Program.

Please make sure your contractors are registered with Crisp County and have a valid business license for your protection before any work begins on your property.

If you have any questions please call 229-276-2640 and ask for Connie Youngblood or Jimmy Mumphery.

Thank you.
