Fast response time - Quality workmanship - Superior value

Portland Precision Engineering has earned an outstanding reputation in the Southwest Victorian Engineering and Maintenance markets for consistently serving its clients with Responsiveness, Quality, Value and Innovation. We are a full-service company with Design & Engineering, Fabrication and Maintenance & Repair capabilities.

The Portland Precision workforce consists of trade certified Mechanical Fitters, Machinists, Boilermakers, Mechanics, Apprentices and Trades Assistants. We also employ Crane Operators, Riggers, and Plant & Equipment Operators. Also on staff are a Mechanical Engineer with AutoCAD proficiency and a Project Coordinator.

Portland Precision Engineering are critical to the regions industrial base providing preventive maintenance and urgent repairs to Facilities, Machinery, Equipment and Mobile Plant across several sectors including Timber/Fibre, Road Transport, Aluminium, Fertilizer, Wind Energy and Food Production.

Located just blocks away from the Port of Portland, Portland Precision Engineering are experts in the Timber/Fibre sector with extensive experience providing maintenance & repair and solution design and fabrication services for both timber processing (harvesting and chipping) and road transport operators (trailers and transport bins).

INDUSTRIAL

Major Shutdowns (up to 25 personnel)

- Timber processing/wood chipping
- Port operations – Grain terminal
- Fertiliser manufacturing & storage

Capital Projects

- Infrastructure replacement

Plant & Equipment refurbishment

Mobile plant and vehicle maintenance

TIMBER/FIBRE

Static Chip Mill Maintenance & Repair

- Shutdown planning and execution
- Preventative maintenance
- Spare parts fabrication & installation
- Structural repairs & modifications

In-Field Chipping Equipment Repairs

Port Discharge Facility Modifications

ROAD TRANSPORT

Custom design & fabrication

- “Tip-through” wood chip transport bins

Trailer modification & conversion

Truck & trailer inspections & servicing

Urgent repairs

- Structural & mechanical

MARINE

Major overhauls/surveys

Main and auxiliary engine overhauls

Hull and other structural repairs

Pipe & pump refurbish/replacement

Winch repairs

Boiler refurbishment & survey

Cleaning for quarantine inspection
