

Region 15 is awesome. We have so many dates set for next year. Please look at the event page for the dates, the more attendance we have the more we grew. With that being said I'm pushing region 15 members to step up more and help more, can't have the same 5 or 6 people doing the leg work. A lot of the dates we set I know with my job I personally can't make but without events and such we won't grow so I'm doing all I can for the region.

We did the gutsy blue balls run and it was a great show out. We had so many bikes and was able to make a very good donation to people in need, so thank you for everyone that showed. Also thank you pinhead for keeping us all safe and thank you wild rose for allowing us to do this every year you do more behind the scenes work than most people know.

With that being said I want to say congrats to our members of the year.... Debbie (wild rose) and Mike Stapleton. The work you two do and the effort you put in has not went unnoticed.

I'm ending this with 2020 sucks and region 15 is going to make 2021 a year to remember so please come support us, we will support your region and together abate can grow within.
