

Washington State Dahlia Society Meetings

Refer to the current newsletter (when published and posted to website) for details.

The Washington State Dahlia Society holds regular meetings on the third Monday of each month at 7:00 PM at the [Fircrest Community Center](#), (view from South end...enter around corner to the right) [555 Contra Costa Avenue, Fircrest, WA.](#)

Our monthly meetings feature informative presentations by experienced growers from our own society, and other societies in the Northwest, covering all aspects of growing exhibition quality dahlias. Occasionally, arrangements are made to have guest speakers from the community give presentations on subjects related to growing dahlias or gardening in general, for example: all about mushroom compost; the benefits of worm tea; photography, etc., etc.

Visitors are always welcome – so drop by and get acquainted! It's a great way to meet other dahlia enthusiasts and learn more about growing dahlias, storing tubers, where to get the really good varieties, show competition, and more!

Our members are a knowledgeable, enthusiastic group and are always happy to answer questions.
