

Interior Cleaning • Recreational Vehicles

We're ready to make RV's the cleanest they've ever been....

Most RV's have floors, bathtubs and showers to clean, but little storage room to bring along the essential cleaning supplies to maintain the unit. Also, the strain on being on one's hands and knees and reaching above your head to get to those corners and hard to reach corners is difficult, however Dakota Supplies has a solution for the RV enthusiast, the **moppitt®**.

The **moppitt®** is compact design, lightweight, and efficient to use with an extendable handle adjustable to multiple heights. The cleaning POD is pre-moistened with interior cleaning solution and is attached to the pole or the Hand-Held. Saves time and storage space for cleaning supplies.

Once used, the soiled pad can be ejected without ever touching the mess. Designed for cleaning bathrooms, floors, tables, counters, cupboards, and any hard surface, the **moppitt®** allows the RV owner the tool to keep everything feeling new, fresh, and clean.

We want to be part of the routine that makes your world better, healthier, and cleaner. And, the more you use **moppitt®**, the more you will enhance the experience for your family.

Address the mess in three simple steps

ATTACH CLEANING POD
 to **POLE** or **HAND-HELD**
 ready to clean

CLEAN MESS
 without touching mess

EJECT / RECYCLE
 without touching

About our Product

Increased Hygiene | Safety | Time | Storage Needs | Sustainability

Hygiene

Reduce the risk of flu and cold like symptoms by maintaining the cleanliness of your RV.

Put aside the ineffective old-style mops or the use of paper products.

Safety

Reduce slips, trips and falls of family and guests. Ensure family don't touch unsanitary messes or get down on hands and knees to clean.

Asset Management

Maintain your RV with improved cleaning tools that will make your unit look new for years to come.

Time

Enhance your RV travel experience by better equipping yourself with tools that can be easily stored and used.

Sustainability

PODS are recyclable (future bio-degradable) and are infused with interior cleaning fluid.

Extendable Mop, Hand-Held, and Cleaning PODS

Compact design with extendable handle for multi-height cleaning. Use with Pre-Moistened cleaning PODS – no extra chemicals required. The unit stores easily in a cupboard or hangs in a small closet in the compact storage bag.

Extendable Pole Mop

Hand-Held with moist cleaning pad attached

PODS ready to use with industry approved cleaning fluid. Puncture lid with pole or hand-held to open, attach pad, discard cup in recycle.

Storage Bag
