2022-2029 SABBATH CYCLE?

Many End Time Watchers are assuming a 1948 timeline based on Psalm 90 and using 80 years as the Maximum to then reverse engineer the count to suggest a start to the 70th Week of Daniel in 2021.

This study contends that the correct timeline should be synchronized to the star to Israel's Sabbath Cycles, which started in 1952.

1952 + 70 years = Fall 2022

Moreover the 7 days to get from Egypt to the crossing point of the Red Sea plus the 3 more days it took to get from the Crossing of the Red Sea to the foot of Mt. Sinai would be a total of 10 days.

This foreshadows the giving of the 10 Commandments on the 50th day at Pentecost.

The following distances determined by GPS coordinates are itemized below. These locations are based from firsthand eye-witness to each site. Note that some measurements are an approximation to these locations and suggestive in the prophetic scope for this study as some actual points topographically maybe impossible to determine.
