

**ALTA**  
WINDOW FASHIONS

**WINDOW  
SHADINGS**  
HORIZONTAL // VERTICAL

*design simplified*

A blind and a sheer beautifully crafted as one. Meet Window Shadings by Alta. Adjustable fabric vanes between two translucent panels gently diffuse light while adding an element of privacy. Pretty brilliant.

*Let's go window shopping.*

# WINDOW SHADINGS

*by Alta*

Window Shades with Retractable Cord:  
SOFT STRIPE | Vanilla Milk Shake N14-204

# LIGHT AS AIR.

*Cool, clean lines keep the styling as modern as your perspective. Even with an extended expanse of glass, Window Shadings keep the sophistication level uncluttered and the functionality unparalleled.*

*Shadings turn harsh and glaring sunlight into a soothing, soft glow...marvelous.*

Window Shadings with RemoteLift 2.0 Motorization:  
PASSION | Touch of Beige P9-252

## WHY WINDOW SHADINGS?

Because defying clichés is just your style. And really, the alliance between a fine sheer and a practical louvered shade is a study in cutting-edge design.

- Wide windows and doors – even up to 120" – have met their match.
- Challenging environment? Our fabrics are rigorously tested for all conditions.
- When fully raised, the shading completely disappears into the headrail making a clean getaway.
- Cord-free design up to 84" wide makes for a safe and minimalist design.

## IDEAL FOR...

- Soft, filtered light. With two sheer panels plus adjustable soft fabric vanes, you can go from glare to glow in a snap.
- Maintaining your view and your privacy. Our innovative translucent fabrics keep the outdoors in sight by day, and indoors out of sight by night.
- Moderating external elements. Keep those powerful sun rays out and the soothing temperature in.
- Guarding against UV damage. An assortment of performance fabrics include options that filter out 88% of the sun's harmful rays.

# GET YOUR GLOW ON.

*Shadings transform harsh sunlight to an ambient glow worthy of a photographer's studio. And oh so flattering.*

*Alta Advantage*

## S-SHAPED VANES

Our S-vane fabric design uniquely and expertly disperses soft, natural light far into your room, reducing the need for flicking that switch, thus reducing your energy bills and your stress levels. And you thought it was just pretty.

## ANTI-MOIRE FABRICS

No, you're not seeing things. That's because Alta fabrics are uniquely designed so that at any angle the view is virtually clear of distortion usually found when sheer fabrics are layered. So, no moire.

2" VANE

Ideal for smaller size windows.

2 1/2" VANE

Versatile option that is suitable for most windows and offers the widest variety of styles.

3" VANE

Great option for larger windows and provides maximum view-through.

# DIM THE LIGHTS.

*Our specially engineered vane fabrics are both gorgeous and groundbreaking with their clever ability to diffuse light, never fray and withstand temperature extremes without a single complaint.*

## FABRIC OPACITY OPTIONS

TRANSLUCENT

LIGHT DIMMING

Diffuses light and provides a soft glow with privacy when closed.

Dramatically reduces the light and provides privacy when closed.

Window Shadings with Cordless Lift:  
**SLUB STYLE** | Sugar Cane N10-201

## MOUNTING OPTIONS

*inside mount*

*outside mount*

*As a leader in cordless innovation, we offer smart options that enhance the safety of window treatments to help protect your children and pets.*

*We proudly carry the “Best for Kids” designation, certifying tough independent laboratory testing.*

## CONTROL AND DESIGN OPTIONS

### CORDLESS LIFT

Scan this to see how it operates.

A light pull on the handle adjusts the shade. With no visible cords, this option provides enhanced safety.

### RETRACTABLE CORD

The single cord pull raises and lowers the shading and tilts the vanes for exact light and privacy control, yet remains the same length for enhanced child safety.

### CONTINUOUS CORD LOOP (standard)

Cord loop remains the same length while lifting tall or heavy shadings with ease. Cord tensioner eliminates dangling cords.

### REMOTELIFT 2.0

Battery-powered motorized system raises and lowers shadings and tilts vanes with the touch of a button. Just right for hard-to-reach windows or for light and privacy control on command. *App available.*

### RECHARGEABLE SIMPLICITY

Rechargeable battery-operated RF system features remote control operation; no manual button. Affordable convenience at your fingertips.

### POWERWAND™

Scan this to see how it operates.

Wand and pendant operation lifts and lowers shadings with touch of a button. System is rechargeable and easy on the budget.

### FABRIC-COVERED HEADRAIL

Color-coordinated fabric covers the headrail, providing a seamless, custom look.

### TWO-ON-ONE HEADRAIL

Operating independently but sharing the same headrail, two shadings combine for a clean design with light and privacy control.

### TILT-ONLY

Tilt-only shadings hang in place and simply tilt open and closed. Ideal for French doors and sidelights.

# HEIGHT OF STYLE.

*The ideal choice for a multitude of benefits all in one breathtaking shade. How? Soft light is dispersed throughout your space, vanes tilt within sheers for privacy control, and the designer style suggests luxurious drapes. We think that's a perfect trifecta.*

Vertical Shadings with Moving Wand:  
TOWNSHIP | Morning White TSLF-6782

## WHY VERTICAL SHADINGS?

Vertical Shadings beautifully dress sliding doors and large windows with equal ease.

- Effortless functionality when vanes rotate open for filtered light or closed for complete light control and privacy.
- Shadings glide across a precision track for the most open view.
- When the shading is closed, the hardware tucks completely behind the shading. Nice.
- Coordinates with our Window Shadings to present a harmonious look in the same room.

## CONTROL OPTIONS

*combination wand/cord*

Precise control of the wand tilts the vanes open or closed, along with a cord to easily draw the shadings across the window.

*moving wand*

Opens and closes the vanes with a simple twist and effortlessly draws the shadings across the window. Enhanced child safety option. (Note: Moving wand is an option with side stack only.)

## FABRIC OPACITY OPTIONS

### TRANSLUCENT:

Diffuses light and provides a soft view and privacy when closed.

### LIGHT DIMMING:

Dramatically reduces the light and provides privacy when closed.

## STACK OPTIONS AND STACKBACK

**SIDE OR SPLIT STACK** Shadings can be stacked on the left or right side of a window with the control wand on the stacked side. Or, open shadings from the center with the wand on either side.

**Stackback** is the width of the fabric panel when the shading is fully drawn. For outside mount, be sure to add this width if you want the shading to stack **completely off** the window or door opening.
