PROGRAM. OUR PROFESSIONAL

## PROFESSIONAL SYMPTOM MANAGEMENT IN YOUR HOME

The Agape *By Your Side* program gives you a place to turn when symptoms do not respond to treatment. A special team highly trained in symptom management will monitor the patient until all symptoms are controlled.

The patient's primary care nurse will determine how long this care is provided in accordance with hospice regulations.

## IS THE *BY YOUR SIDE* PROGRAM PROVIDED 24/7?

While the goal of the *By Your Side* program is to provide symptom relief whenever needed, our staff will not be in your home indefinitely. Our goal is to mitigate and control symptoms. Friends, family and other caregivers will remain each patient's primary support team. The professionals at Agape are ready to provide temporary additional support as needed.

## WHAT CAN I EXPECT FROM THE AGAPE *BY YOUR SIDE* PROGRAM?

While participating in the *By Your Side* program, a specially trained nurse will visit the patient daily. The Agape team, made up of a nurse and CNA, will teach family members and others how to give medications, reposition the patient in the bed, and other specific procedures that may be needed. Staff members will leave detailed notes for the patient's other caregivers.
