

### Baudouin Leclercq, M.D.

Dr. Leclercq has established himself both as an entrepreneur and caring physician in his field. He approaches each patient with a passion for healing and thorough treatment of the access. Having performed more than 10,000 procedures, Dr. Leclercq has refined his skills, bringing a diverse approach to the procedure room and progressive attitude that has brought a success rate among the best in the nation. He and his skilled team will not only treat their patient, but show the patient that they are the absolute priority at Vascular Action.
