

Terms and Conditions:

Here at SHPF we know you work hard for your money and we want to make sure you are happy with your purchase. We're not here just to sell eggs and birds and move you on your way. We want to guide you in the right direction and inform you with possible issues that can occur. All shipments that leave our farm are packaged with the upmost care but there are just certain things that are simply out of our control. Before purchasing eggs or chicks please understand the risk you are taking, you are dealing with fragile livestock.

SHPF will not be held liable for the final outcome of shipping, fertility/hatch rates, or death rate of these listed due to the fact that we cannot control postal shipments, fertility, incubators and rearing techniques. If eggs or chicks are being shipped via mail we cannot guarantee intact/survival rate as we have no control of US Postal Service handling techniques, timing of delivery, and temperature fluctuations of their vehicles and buildings. All mail packages though are insured up to \$50 and all claims must be immediately reported to the US Postal Service with any shipping issues you may encounter. To minimize lengthy delivery times and/or deaths, we only ship day old chicks 1-day express to qualified locations and eggs priority mail anywhere in the lower 48 states.

Before purchasing you will be asked if you understand these terms and conditions. For further information on shipping, fertility, hatching, or rear guides please refer back to our website on our home page. Thank you for your understanding and we look forward in talking to you soon!
