Is Your Company Prepared?

--- ISO9001:2015 --- AS9100-2018 --- SQF2000 v8 --- ISO22000:2018 ---

I can provide low-cost on-site consultancy for developing a tailor-made Quality Management System (QMS) with the aim of helping your company improve and increase its competitiveness and achieve certification from an accredited certifying body. I help you understand and apply the quality management system requirements while ensuring that your program proceeds smoothly. A QMS based on one of the above standards is recognized worldwide as an excellent tool for improving performance and, increasing customer satisfaction. I utilize a System Implementation Procedure which guides you through the implementation and development of a QMS as follows:

GAP ASSESSMENT - Review of existing practices and documents against the requirements to determine what the project plan, time and costs are going to be to achieve the Quality management system certification.

SYSTEM DEVELOPMENT - Depending on the Gap Analysis, several modules may be necessary to prepare to meet the standard or standards

IMPLEMENTATION- I will work alongside management implementing and monitoring the management system.

INTERNAL AUDITS / AUDITOR TRAINING - I can either train your audit team on the new requirements or I can conduct a full system internal audit of your operation.

CERTIFICATION - Assist your organization in preparing for the initial certification audit and be present if needed

AFTER CERTIFICATION - For most organizations this is the beginning and not the end of the journey toward building excellence in management systems

TRAINING

On-site training in many of the areas required for a robust Quality Management System

OTHER REQUIRED PROGRAMS

I can also assist in establishing and improving programs that are required by all quality management systems: Calibration, Training Records, Document Control, Root Cause Analysis and Statistical Process Control.

For Questions about any of the above services, please call Mark Bradley at 812-305-3867.

CHAIR'S CORNER

by Tom Watson

May 14, 2019 will be our last meeting before our summer break. The topic for this meeting will be recognizing the ASQ Scholarship winner and their family. The Section Leadership Team just finished reviewing and scoring all the applicants. We have selected the winner. One of the items on the agenda for the meeting is for the applicant to read the essay they submitted titled "What Quality Means to Me".

Please place this on your schedule for May. The meeting will be at the Log Inn in Haubstat, Indiana. This will be a very rewarding experience. It is definitely one of the ways ASQ provides a service to the community.

Another item I would like to communicate to our membership is that the Evansville-Owensboro Section has received the Gold award recognition for 2018. This level was achieved by meeting the good standing requirements as well as exceeding the Member Value, and Increase in Growth & Retention % metrics. In order to meet Good Standing, sections have to submit required reports to ASQ Headquarters by certain dates. Growth and retention is all members committing to joining and remaining as ASQ members within our section. As part of the Section Leadership Team, I am committed to providing exceptional value to our members. If you have a question or would like to have topic presented at one of our monthly meetings, please feel free to contact me. My e-mail address is tom.watson@kimballelectronics.com .
