

# How it Works

1

Make your design and place it on the bed.

2

The Formbox moulds a 3D shape in seconds.

3

Take it out and make dozens more in minutes.

4

Or use it as a mould to cast hundreds of versions in a range of materials.

## What have we been making?

Concrete cactus pots

Product prototypes

A box of chocolates and packaging

Geometric soap and the dish for it to live in

An aerodynamic drone casing

A set of coloured superhero masks

Mock up glasswork for a geodesic dome

The possibilities are endless!

## Materials

### Forming

Mayku Form - White versatile sheet for making objects.

PN: MFA180100AA

Mayku Cast - Clear, food safe sheet for making reusable moulds.

PN: MCA180100AA

### Casting

- Concrete
- Plaster
- Soap
- Chocolate
- Jesmonite
- Wax
- Jelly
- Ice
- Foam
- Silicone

## Key Specs

- 8" x 8" forming area
- 5" draw depth
- 1000W ceramic heater
- Temp 320 - 644 °F
- Material thickness 1/64" - 1/16"
- Large external handles for safe and easy use
- Steel bearings for smooth operation
