

March 31, 2020

Today, AZ RV Salvage is temporarily closing its showroom to walk in customers as a safety measure due to the evolving Coronavirus. We continue to keep the safety of our employees and customers our main priority.

We still invite you to email us your parts requests to info@rvyard.com. We will remain open to help you stay safe on the road, and provide RV service.

We have shipping available to our lower 48 states, and will do our very best to get your parts out to you as quickly as possible. As you place your orders through our email system, our distribution department will get your parts pulled, tested, shipped and at your home - or your away from home - address that you provide.

As Americans, we must all work together to avoid infecting others. The camping and RV communities are our family, and we urge you to stay home, and stay healthy.
