

How May I Contact You?

As your child's teacher I try very hard to maintain a **consistent open line of communication between home and school**. That is why I need your most **current contact information at all times**. Communication via phone and email are most beneficial. I try to return all questions and comments within a 24-hour window.

Please fill in **ALL FIELDS** and let me know which method of contact is the **BEST** way to reach you. Should your phone numbers or email change, please let me know as soon as possible.
