

How Trees Work

Free Children's Nature Presentation

Who: Recommended for 3rd - 5th Graders

When: Wednesday, August 21st @ 10:00 AM

Where: Hanson Park

38 Springfield Ave, Cranford, NJ

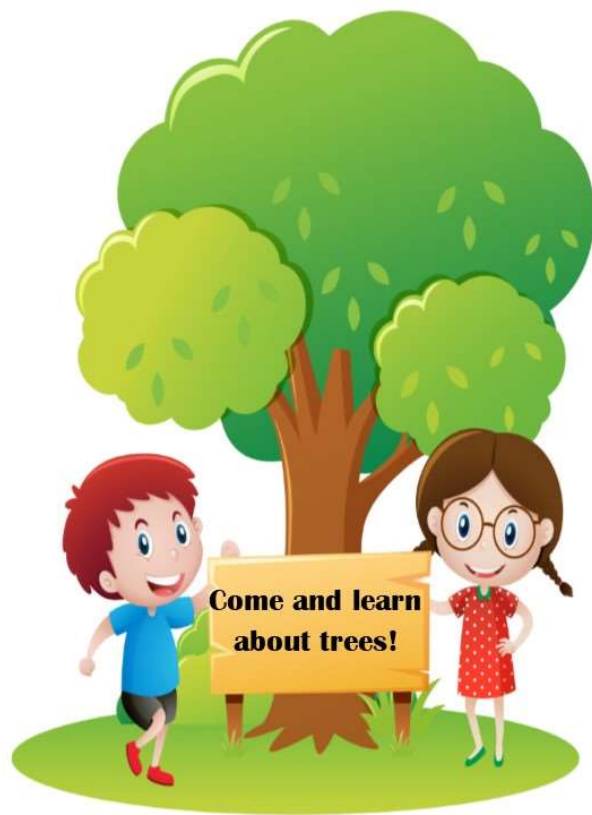

"How Trees Work," is an educational program for 3rd-5th graders. During this free, hour-long class, students will learn all about trees from a Master Tree Steward.

Some of the topics covered will include: why leaves fall, how to tell the age of a tree and all about maple sugaring.

A round of Tree Jeopardy will be played, all while enjoying the beautiful surroundings of the park.

In the event of inclement weather, we will be relocating to the Cranford Community Center @ 220 Walnut Ave.
