

GENERAL REGULATIONS

61. FLOWER & ADORNMENT REGULATIONS DURING MOWING SEASON

FROM MAY 1 THROUGH OCTOBER 31ST OF EACH YEAR

Nothing is to be "placed on or inserted into" the ground ie, vases, hooks, lights, statues, pots etc.

In the case where your monument does not have mounted or affixed vases for stemmed flowers, a saddle type artificial arrangement is perhaps an alternate solution for your flower arrangements during our mowing. These cemetery saddles can be purchased thru Amazon with or without flowers. During mowing season, all flowers must be affixed to the top of the headstone (using a cemetery flower saddle) or in permanently affixed vases. If your monument does not have a vase affixed to it, you may wish to have your monument maker add one.

Any object that must be inserted in the ground such as artificial flowers, vases on stakes, adornments or signs with stakes etc. are strictly prohibited during mowing season and will be promptly removed.

No potted plants or vases, etc. of any kind shall not be placed on the ground during mowing season.

At no time are extended memorial gardens with fencing, bricks, mulch, stone, plantings etc. allowed.

No plantings of any kind are to be done. The Cemetery shall have sole responsibility in the maintenance of the Cemetery including the decision of when and how shrubbery and trees are trimmed or removed.

Groundskeepers reserve the right to reposition or remove objects that do not conform to the Cemetery Rules & Regulations or interfere with the performance of their duties.

The removal of these items is strictly for the safety of our groundskeepers and their equipment and is in no way a personal attack on you or your loved ones. Please be advised that owners of said removed items will not be notified nor have said removed items returned to them.
