Dear Baseball Participant,

It's never too early to think about baseball and the upcoming season, and I would like to offer you a great opportunity to get a head start on the competition. Attending the Top of the Nation Baseball Clinic will give you the chance to learn and practice your baseball skills with current and former players, as well as the other guest coaching staff.

The main goal of the clinic is to teach the players how to improve their individual skills. We will accomplish this by working with players in small groups to help them work on the fundamentals of the game. Our purpose is to stimulate learning and teamwork in an enjoyable day for both players and coaches.

I am committed to creating a positive atmosphere. Our staff cares about young people, and the clinic will provide opportunity to meet new challenges. I am confident this clinic will provide a special baseball experience. I look forward to seeing you on February 1st.
Sincerely,
Chance Dennison
