Designed for the Classroom

Designed specifically for educators looking for a safe, hassle-free laser cutter engraver, that offers exceptional quality and boasts a host of innovative features. From smart, user-friendly software and automatic focusing to camera assisted material placement.

CLASS 1

EMBlaser 2 So Many Materials

Acrylics

The Emblaser 2 can cut most solid colour Acrylics. It can't cut clear or lightly tinted acrylic, but it can cut 3mm Black, Green, Yellow, Red. It can also engrave some tinted acrylics. Due to the frequency of the laser diode, it's light will pass right through clear or lightly tinted materials and will not affect it.

Wood

This is where the Emblaser 2 shines. It can cut up to 6mm Plywood, MDF, Balsa and many others. Don't forget it also does an excellent job at engraving photos or vectors onto wood.

Leather

Customise your purse, wallet or bracelet in ultra-fine detail with the Emblaser 2. Cut & engrave Natural leather, Suede leather and many other types of leathers.

Fabrics

Cut and engrave amazing intricate, elegant, classic patterns and it even seals fabric edges to prevent fraying. This method of design is very popular in the fashion industry.

Paper

With the Emblaser 2 you can create an unlimited range of elaborate greeting cards, packaging, personalised engravings and delicate laser-cut patterns.

Cardboard

Using 123Make you can import from thousands of 3D STL files and slice them to make the virtual world physical.

Power of Lasers & Prisms

5 watts is that all I hear you say? Well the smart chaps over at Darkly Labs managed to squeeze out all the energy, focusing it through precise optics to get all the energy focused to as thin as the head of a needle.

EMBlaser 2 Software

Use the software
you know & love

MacBook Air

Why choose Emblaser 2 over CO2?

- The Emblaser 2 is about 1/5th the cost of a Co2 systems.
- Emblaser 2 doesn't use mirrors, so no alignment requirement.
- Can do photographs with higher definition compared to CO2.
- Simple servicing, no need to return to base for replacing laser unit.
- Emblaser 2 is air cooled. No messy buckets of water and fish pumps needed.
- No complex manual focusing and laser height is software controlled

What's in the package:
