The Red Wing Pro

This AMO 58" hunter sets a new standard of excellence for the discerning bowhunter. It combines tropical hardwoods with Slim Line action and new limb design. A handsome overlay on the back adds the finishing touch. The Red Wing Pro has built-in bow quiver inserts. It's available in weights from 35 to 70 pounds. Fistmele: 8" - 9" 3007 / \$54.95

Hunting bow options include the Wing sight extension and padded bow case.

The Vantage Pro

Here's something really new in a hunting bow—Slim Line torque-free design. If you take your sport seriously, you'll appreciate the speed and accuracy of this top Slim Line hunter. It's made of high-density Formica for beauty and durability. The Vantage Pro has built-in inserts for Wing's bow quiver. Choose from AMO 52" and AMO 62" lengths. Weights from 35 to 70 pounds are available.

Fistmele: 52"-7½" - 8½"
62"-8" - 9"
3006 / \$84.95

BOB LEE *President,*

Wing Archery Company

My first love is, and always has been, bowhunting. So you can see why I'm particularly interested in any hunting bow that carries the Wing trademark. I've thoroughly tested the new Slim Line hunting bows and can tell you they are truly a bowyer's work of art. You don't often find a bow that combines beauty, dependability, speed and stability. Bill Stewart, our bowyer and designer, put all these features together in the new Slim Line design—and added torque-free shooting ease to make an unmatched combination.

Bob Lee

Slim Line. The first major design change in bows in a decade. And what a change. The pivot point of the handle is virtually torque-free. The window is slimmed to allow maximum arrow clearance.

Limb design is so stable that twisting of a limb becomes a challenge.

This was no accident.

Our bowyers applied exacting technology to come up with a bow design that would mean consistently accurate performance. And this revolutionary design is every bit as sharp-looking as it is functional.

The sleek lines and pleasant feel of the Slim Line make blocky, bulky bows old-fashioned.

Slim Line—It's the new meaning for the word "best"

The Competition

The bow that can't be compared to anything you've shot before. All the advantages of the revolutionary Slim Line design—torque-free shooting, speed with stability, and an all-aluminum riser—make this the ultimate. The metal riser section is virtually indestructible... it won't crack, check or warp. And the Competition has plenty of mass to keep you on target. The limbs on this bow are easy to remove, and an extra set will give you plenty of versatility. The Competition is available in weights from 25 to 50 pounds and in AMO 68" and AMO 70" lengths.

Wing's new adjustable arrow rest is standard equipment. Also included are a padded bow case (please specify model #3406 long or #3408 short) and built-in inserts for Wing's stabilizer and counterbalance weight. The sight extension, stabilizer and counterbalance weight are optional.

A custom-made hard carrying case for the Competition is also available. Fistmele: 70"-9" - 10"
68"-8" - 10"

3001 / \$174.95
LIMBS / \$74.95
HANDLE / \$100.00

The Master

This model has all the major features of Wing's Competition bow in a beautiful one-piece design. It has the new look and torque-free features of the Slim Line. Made of tropical hardwoods and Formica bowflex, the Master comes in AMO 66" and AMO 70" lengths and in weights from 25 to 50 pounds. Standard equipment with this bow are a padded bow case and insert adapters for the Wing stabilizer and counterbalance weight.

Fistmele: 70"-8½" - 9½"
66"-8" - 9"
3002 / \$124.95

The International

For those who really prefer simplicity, here is a bow that gives you all the design features of the Slim Line. The International is crafted from tropical hardwoods. Standard equipment includes a padded bow case plus insert adapters for Wing's stabilizer and counterbalance weight. Available in AMO 68" length and in 25- to 50-pound weights.

Fistmele: 8" - 9"
3003 / \$74.95

JIM PLOEN

*PAA Champion
1970 New England Indoor Champion
Holder of International Indoor
and Other Titles*

It's been a real satisfaction for me to work closely with Wing in the design of the new Slim Line. Seeing things from the competitor's side, I demand perfection. And that's what these bows give you—perfection. I'm staking my 16 years' experience, including 7 years as a PAA competitor, on the line when I tell you this is the most exciting innovation in bow design I've seen in all my years as an archer.

James M. Ploen

CUSTOM TAKE-DOWN BOW CASE

This sturdy custom case of lightweight Boltron gives your Competition bow all the protection it deserves. With two removable, non-slip foam interliners, the case keeps a handle and one or two sets of limbs safe while you're traveling or between matches. There's room for extras like arm guard, glove and tab also.
3408 / \$29.95

PADDLED VINYL TAKE-DOWN BOW CASE

This easy-to-store vinyl case for the Competition bow lets you take advantage of the bow's take-down feature. Along with one set of limbs and one handle you can pack a stabilizer and bow sight in handy pockets. Adequate padding makes sure your equipment stays just the way you packed it.
3409 / \$13.95

360 ARROW REST

With Wing's newly developed 360 adjustable arrow rest you can fine tune your bow better than ever before. It's the first arrow rest to give you horizontal and vertical adjustments. Move the wire rest for vertical adjustment; adjust windage by screwing the plunger in or out. This innovative arrow rest is standard equipment on the Competition and is optional on the other Slim Line target bows.
3725 / \$4.95

WING BOW QUIVER

A must with hunters since its introduction last year, the Wing bow quiver offers convenience, light weight and fast arrow access. Six arrows of any size fit securely in the quiver. Both Slim Line hunting bows come equipped with quiver inserts. The adjustable sliding brackets attach easily to any size bow, either right- or left-handed. Adapters are included for other makes of bows.
3501 / \$16.50
3502 Arrow Clamp / \$2.95 ea.
3503 Rod Clamps and Screws / \$2.25 pair
3504 Tape-On Pads / \$.75 ea.
3505 Cup Insert / \$.75 ea.
3506 Brackets (Complete) / \$2.95 pair
3507 Allen Wrench / \$.15

See Wing's complete catalog for arrows and our complete accessory line.

PADDLED BOW CASE

Keep your bow looking its best by storing or carrying it in this black leather-grained vinyl case. The 3/4" padded lining can save it from scratches and nicks. The case comes in 52", 62" and 66" lengths. (The 66" case will accommodate bows up to 70" long.)
3406 / \$10.95

SIGHT EXTENSION

For more accurate shooting, use Wing's sight extension. It's custom-made to mount on all Slim Line bows. Putting it on is simple. Just remove the two screws from the Wing medallion on the side of the bow. Lift off the medallion and install sight extension. It will be perfectly positioned every time. Fits any standard sight base.
3806 / \$10.95

STABILIZER

The Wing stabilizer, in either 15" or 22" lengths, gives you added control. All Slim Line bows have built-in insert adapters for this shooting aid. Specify length of rod when ordering.
3813 Stabilizer Set (One Rod and One Weight) — Specify Length / \$12.95
3814 Rod (Specify Length) / \$7.98
3815 Weight (Weights 3 1/4 Oz.) / \$4.98

COUNTERBALANCE WEIGHT

This dynamically designed weight counterbalances the weight of the stabilizer. The counterbalance weight and the stabilizer weight are interchangeable. Inserts for both are standard on all Slim Line target bows.
3818 (Weights 6 Oz.) / \$4.98

BOW GUARANTEE

Every Wing Bow is numbered and accompanied by a registration card which must be filled out and mailed within 10 days after date of purchase. Should failure occur in a bow so registered, the Wing Archery Company will repair or replace it if repair is not feasible, with the same model or the closest model available. If failure should occur within 6 months of the purchase date, replacement will be made at no charge unless models have changed or list prices have increased, in which case the customer will be charged for the difference in models or difference in list price. The bow must show no evidence of misuse or improper handling, and the serial number must be intact. After 6 months and up to 3 years, and provided the bow has not been misused or mishandled, repair or replacement will be made for 50% of the list price at time of purchase unless models have changed or list prices have increased, in which case the customer will be charged for the difference in models or difference in list price. No adjustment will be made until the damaged bow is returned to the factory for inspection. Replacement will be made with a bow of the same model and weight, as near as possible. This guarantee is valid only when purchase has been made through an authorized Wing dealer. Dealers are not authorized to make adjustment, but will be glad to handle shipping and correspondence.
