

WOLF VON KUMBERG

Nationality: German & Canadian

Languages: Fluent in English and German. Social knowledge in Italian and French.

Wolf is a leading internationally recognised independent arbitrator and mediator practising globally out of London, Washington D.C and the UAE.

Wolf has over 30 years of experience in complex commercial disputes within international business with a particular focus on Maritime, Aviation, Defence, Technology, Cyber, Engineering/Infrastructure, Energy, Oil & Gas and Investor-State dispute resolution. Before establishing his ADR practice, he served as Legal Director and Assistant General Counsel to Northrop Grumman Corporation and prior to this at Litton Industries Inc. During his international career he was located in their Toronto, Zurich and London offices.

As Assistant General Counsel for Northrop Grumman, Wolf worked with Governments and State Agencies in over 52 countries dealing with trade, security, regulatory and investment matters, and responsible for international disputes including arbitration, adjudication, and mediation. In that role, he has held security clearances in major NATO countries. He is also very familiar with EU Law and the domestic Laws of most EU States, as well as being a qualified solicitor in England and Canada. As such, he is well-versed in civil as well as common law.

His expert analysis has covered all types of dispute management and resolution boards, adjudication systems, ADR guidelines and Model Clauses, ADR policies and procedures, Global conflict compliance and governance programs, arbitration programs, government procurement and supply chain dispute management. He has worked extensively with ADR institutions to develop appropriate process design mechanisms for highly complex disputes including state-to-state, investor-state, and commercial matters.

He is a well-rounded and effective international dispute resolution expert, capable of dealing with the most complex and high-value cases. He is a thought leader in the development of investor-state mediation and dispute risks emanating from the energy transition. In recognition of his service, he has been appointed by the President of the World Bank to the ICSID Conciliation Panel.

Specialist Sector Experience

- Mediation & Dispute Boards
- Aviation, Aerospace, Defence & Government Services
- Construction, Engineering & Infrastructure
- Maritime
- Insurance, Reinsurance & Fintech
- Energy, Oil & Gas
- Engineering & Technology
- Environmental & Climate Change
- Technology & Telecommunications
- Energy, Natural Resources & Renewables
- Investment Treaty
- Artificial Intelligence (AI) and Blockchain
- Cyber
- Global Corporate Tax
- Family Business and Partnership Disputes
- IP (Trade Marks and Patents)

Mediation & Dispute Boards

Wolf is also a certified CEDR mediator and American Arbitration Association Master Mediator. He has mediated numerous types of commercial disputes and sits on the mediation panels of CEDR, AIAC, WIPO, SCCA and the AAA/ICDR. He has also been active in the DIFC in Dubai and the ADGM in Abu Dhabi. Disputes have largely been cross-border and include locations in Singapore, Kuala Lumpur, Hong Kong, New York, Paris, Abu Dhabi, Washington, Toronto, Frankfurt, and London.

As mediator, Wolf has experience in complex, high-value disputes, often involving complex multi-party process design capability. He also has Co-mediation experience and has developed experience in investor-State mediation involving multiple stakeholders. His Commercial mediation experience particularly in the following areas: Aerospace, Aviation, Energy, Environmental and energy transition, Technology, Cyber, Maritime, Insurance, and Construction/Infrastructure.

Dispute Boards

Wolf has applied his accumulated knowledge to the field of global commercial conflict avoidance and resolution and he has been involved in the implementation of Dispute Boards in various regions of the World.

These boards have been used in the aerospace and technology sectors where long-term commitments and relationships required conflicts to be dealt with expeditiously and cost-effectively, permitting projects to be delivered. His previous dispute board experience has related to: defense projects, joint venture undertakings, green projects, and infrastructure programs.

Aviation

Wolf has unparalleled experience in disputes related to the Aviation & Aerospace, Defence, Compliance, Investor/State, IP, Cyber Security and Technology Industries.

He is a founding member of the Aerospace, Aviation and National Security panel of AAA. Having worked for Northrop Grumman Corporation a major aircraft manufacturer for the US Airforce contributing to such iconic aircraft as the F15, B2 Bomber, the GlobalHawk and the F35, he is well versed in the design, manufacture and supply of aircraft systems globally. He is also highly experienced in dealing with global aerospace supply chains and the issues associated therewith.

He also specialises in aerospace/aviation disputes arising out of the energy transition and climate change.

His aviation disputes experience includes:

- Aircraft manufacturing and supply contracts
- Procurement issues
- Certification issues
- Aircraft joint venture, syndicate and partnering disputes
- Aircraft sale, leasing and financing agreements
- Aviation insurance and reinsurance claims
- Warranty and repair claims
- Aircraft crash investigations
- IP and licensing-related claims

Investor-State

Wolf is a leading international ADR figure working together with ICSID, CEDR, and the Energy Charter Treaty Secretariat to develop protocols and policies, as well as training to enable the use of mediation in investor-state disputes. In the process, he contributed to the Investor-State Mediation Guide for the Energy Charter Treaty Secretariat. He is active in developing the field of Investor-State mediation together with ICSID, CEDR, IMI and the ECT. He has worked with several countries to put in place mediation protocols to be used in disputes with investors and has actively worked with them to resolve investor disputes through mediation and arbitration.

Wolf is a founding member of the ADGM/CEDR Investor-state mediation panel in Abu Dhabi specialising in energy transition disputes. He is also appointed by the President of the World Bank Group to the International Centre for Settlement of Investment Disputes (ICSID) Panel Of Conciliators.

Insurance & Reinsurance

Wolf has extensive experience in both the insurance and reinsurance markets as counsel, arbitrator, and mediator. This experience is garnered from several decades as in-house counsel for several commercial companies with global operations. This expertise extends to the following areas of cover:

- Property
- Professional Indemnity
- Commercial
- Health
- Environmental

Energy, Oil & Gas

Wolf has broad energy dispute resolution experience in both downstream, upstream, and renewable energy such as solar and wind projects, and has been involved in energy exploration and transit disputes. He was Counsel for Western Atlas (Schlumberger purchased the company in 2006) in its oil and gas exploration and drilling activity

globally. Wolf also represented Western Atlas in disputes with States and commercial parties. In addition, he worked extensively with The Energy Charter Treaty Organization in relation to energy transit matters and sit on the ECT panel for transit disputes.

Wolf has acted as counsel, arbitrator and mediator in energy-related disputes covering the following matters:

- exploration and drilling
- transportation and trading;
- energy transit;
- supply and marketing;
- infrastructure for oil and gas projects;
- concession disputes with States;
- renewable energy disputes respecting wind and solar projects

Engineering & Technology

Wolf has worked for and with several global engineering companies. He has a broad understanding for research, development and implementation of multi-party, complex engineering, and technology programmes. In this context, he is extremely familiar with the workings of joint venture infrastructure projects and the issues arising from them. He has acquired broad technical and commercial engineering expertise, which he is now utilising in complex, high value engineering disputes. His engineering experience extends to:

- Research and Development
- Infrastructure projects
- Complex Joint venture arrangements
- Satellite systems
- Navigation systems
- Mechanical
- Civil
- Electrical
- Industrial

Environmental & Climate Change

Wolf has been a thought leader in developing ADR mechanisms to deal with the increasing number of environmentally related disputes arising out of Climate Change. He has worked with several leading energy producers to identify areas of dispute risk arising from Energy Transition and developing ADR mechanisms to mitigate those risks utilising his own extensive disputes experience. He has written and spoken on the topic at major Institutional events this year including ICCA, the IBA, the ABA, and several Regional dispute week events. Wolf's focus is on providing the following energy transition dispute resolution services:

- Facilitated negotiation
- Mediation
- Adjudication
- Arbitration
- Conflict Avoidance Boards

Maritime

Wolf was the General Counsel for Sperry Marine, a global manufacturer supplier of sophisticated marine equipment. In this capacity, he acquired a good knowledge for the maritime shipbuilding and shipping industries, together with related issues. He has been involved in several maritime disputes, as counsel, arbitrator and mediator. His experience includes:

- Marine equipment manufacture and supply
- Shipbuilding (commercial and defence)
- Maritime satellite communication systems
- Ship collision investigations
- Maritime security
- Environmental issues

Technology & Cyber

Wolf worked for over 25 years with several defence companies that pioneered the field of cyber technology. In that role he was at the cutting edge of developments and acquired a good understanding for cyber vulnerabilities and defences. He has been involved in the development of blockchain technology and understands its vulnerabilities. He was also involved in several cyber related disputes in which his security clearances were essential. He currently sits on the board of a cyber “Think Tank” and has knowledge related to:

- Ransomware
- Phishing
- Data leakage
- Hacking
- Insider threats
- Blockchain and cryptocurrency
- Software vulnerabilities
- Machine learning and AI attacks

Wolf also has solid AI experience having consulted with several AI developers in the legal disputes field. He understands the ethical, IP, regulatory and data privacy aspects arising in this field. He was involved in successfully mediating a major gaming industry dispute that had an important AI element.

Wolf’s technology experience extends to artificial intelligence and crypto-currency which he has first-hand dispute experience in arbitration and mediation. Whilst at Northrup Grumman he became well versed in satellite and space technology, aerospace and aero disputes. He therefore has a good grasp on how these technologies are developed, deployed and the types of disputes arising from them.

Family Business and Partnership Disputes

Wolf has a certificate in Family Law from Osgoode Hall Law School in Toronto, Canada. He has been active in developing mediation processes for family business disputes and understands the balance between commercial and family relationship considerations in them. In addition, in his mediation practise Wolf has dealt with numerous partnership disputes both with family and non-family members. This puts him in an ideal position to understand the intricacies of such disputes and help in developing appropriate commercially based resolutions for them.

Wolf is also an expert in process design which is an important element in resolving disputes of this nature.

As Assistant General Counsel at Northrop, Wolf was responsible for developing a dispute management process including an ADR Policy, Guidelines and International Dispute Clauses. In addition, he was involved in its international compliance program and complex regulatory investigations. Wolf's expertise also includes development and implementation of specialized global Early Issue Conflict Management (EICM) programs such as conflict avoidance structures, single and co-mediation programs, and board room and partnership dispute programs.

Experience

Recent examples of his mediation experience include:

- Reinsurance dispute respecting COVID claims.
- Major Technology company dispute respecting breach of platform license.
- Construction dispute respecting quality of work.
- Trust dispute respecting allocation of assets.
- US Aerospace dispute respecting provision of satellite equipment.
- Middle Eastern dispute between a large Hospitality Group and its management company.
- Middle Eastern Dispute respecting supply of offshore oil and gas equipment.
- Middle Eastern dispute respecting breach of professional duty by law firm.
