Mr. Maurice D. Ravennah and Dr. Floyd H. Hardin III met nearly a decade and a half ago while attending Morehouse College. Maurice later met Mrs. Nancy Williams while working for the Dept. of the Treasury. The three fused a great friendship and the advantages collected from their varied professional and educational backgrounds has led to the rise of this great "Phoenix"! They founded Phoenix International, Incorporated to drive Georgia's Youth to a culture of success, by pushing them to go **Beyond**; beyond efficient, beyond expectation, and beyond excellence. Knowing that youth are the future; Phoenix International, Incorporated decided to start an ILP to help empower youth aging out of the foster care system to become productively independent and architect success on their own terms!
