

Al Barari - Dubai

www.silktreegroup.com

Location: Dubai, UAE
Project Value: 370 million US
Services Provided: Landscape Design, Environmental Design
Size: 420 Hectares
Client: Zaal Development

Landscape design and master planning for Dubai's most prestigious resort/spa and residential development. The overall theme of Al Barari (Wilderness) was to make open space and parks an integral part of the design. The open space design included large open space on the streetscapes and incorporation of the landscape design into the resort and villa development. The water courses were all built in an environmentally engineered solution using grey water from the villas and commercial.
