Inspiring the Future....

We are currently in the fundraising stage of bringing a Challenger Learning Center to Minnesota. However, we are honored to offer memberships to all who wish to assist us in bringing this amazing organization to the youth of Minnesota! Any membership granted until the center opens will be a "Founding Membership" and each member will be recognized as such on a wall of the future center. Founding Members will be offered free or reduced admission, reserved seating, and/or special access at occasional events we will host leading up to a center opening. Your membership is important to us both for funding the future center as well as an important display of community support. We sincerely thank you for your support!

MEMBERSHIP

- Individual Membership - \$20
Family Membership (3 or more in the same household) - \$50
Donation
*Memberships granted until center opening will be Founding Memberships, which do not require renewal until one year after the center opens.
