Lumenor Consulting Group is a consulting firm focused on delivery of quality business and technology solutions. For 11 years, LCG has specialized in providing consulting services to the transit and government sectors. Clients successfully utilize LCG's assessment, integration, and organizational change experience to gain transparency, compliance, and make effective business decisions.

Differentiators

- Lumenor team of experts will work directly with you and your vendors to manage risks, gather and validate requirements, define hardware and software specifics for optimal use, and be a part of the project leadership to ensure a successful outcome for all resources involved.
- Our background in public transit consulting, systems, and engineering, is well equipped to help bring your agency to the next level.
- Our experience in the DOT industry allows us to help companies meet and exceed the standards set by federal regulations.
- With Lumenor industry knowledge and history of project success in the aviation industry we can work with organizations and help them hone their efficiency as they join the digital world.
