EMAIL vs. POSTAL MAIL

At a future time, the association may offer the opportunity for you to receive all association correspondence and dues invoices exclusively by email. Should you wish, this would terminate all postal mail to you from the association except for documents that cannot be transmitted electronically. As such, a mailing address is still required to be on file. Regardless of how you choose, any owner who provides an email address will receive updates, minutes, and financial reports automatically.

_____ YES! Correspond with me by email _____ NO. Please still use postal mail for me
